Ladies' Decorated Bicycles ...	15	10	5
Grand Total .. Rs.	1,068		

GENERAL CONDITIONS.

1. In view to arrangements being made for staging plants, it is requested that exhibitors will notify to the undersigned, at least four days prior to the Show, what number of pots they intend to enter and for what prize they intend to compete. Entry forms are supplied on application to the Superintendent and exhibitors are requested to use these.

2. The large foliage groups should be ready arranged two days before the Show.

3. Plants intended for competition should be delivered at the Conservatory before 4 P.M. on the day previous to the Show.

4. Cut flowers may be delivered up till 2 P.M. on the day of the Show, but not later if intended for competition.

5. No prize shall be awarded unless there are at least two competitors for it, except in cases of rare excellence, when the Judges will use their own discretion.

The number of exhibits in all classes and sections should exceed the number of prizes offered, otherwise the Judges will be authorised to reduce the full value of such prizes.

6. It shall also be competent for the Judges to reduce the amount of prizes if, in their opinion, the articles exhibited do not merit the full sums.

7. Obtrusive staging, over-crowding, packing to conceal blemishes, and artificial support to blooms, etc., will be judged as defects to an exhibit, preference being given to natural growth and artistic arrangement.

8. Where a number limit is laid down, any exhibit exceeding that number shall be disqualified.

9. Where one plant of each kind or variety is specified as a condition, any exhibit containing duplicates shall be disqualified.

NOTE.—For the purpose of the exhibition the words kinds and varieties may be illustrated as under:—Apples, oranges, figs, grapes, etc., are distinct *kinds* of fruits. Ribston Pippin, Blenheim Orange, Golden Reinette, etc., are distinct *varieties* of apples. Roses, Chrysanthemums, Dahlias, etc., are distinct kinds of flowers. Marshal Niel, Crimson Rambler, La France, etc., are distinct *varieties* of roses. Cabbage, Beans, Beet, Carrot, etc., are distinct *kinds* of vegetables. Sugarloaf, Early Drumhead, Enfield Market, etc., are distinct *varieties* of cabbages.

10. Two or more persons may not compete for prizes separately with plants, etc., from the same garden.

11. If funds are available, the Judges may award special extra prizes in cases of exceptional merit.

12. All exhibits sent for competition must be *bonâ-fide* the produce of, or have been raised by, the exhibitors; and unless otherwise specified, must have been grown in Bangalore.

The Judges may withhold any prize until proof of these conditions be produced. Contractors bringing up fruit and vegetables for competition in their own name can compete for prizes but not for medals.

13. Exhibitors will not be permitted to remove their exhibits until the Show is closed, and gardeners and others found offering articles for sale before 6 P.M., on the day of the Show shall be summarily ejected.

14. No one can be a Judge in any class in which he may be an exhibitor.

15. Similarly, while judging is going on, no exhibitor is permitted to be in the Exhibition and any exhibitor acting contrary after being asked to retire will have his exhibits disqualified.

16. The names of exhibitors can only be attached to exhibits when the judging has been completed.

The following Rules for awarding medals at the Horticultural Shows are hereby notified to the public :—

The Government of His Highness the Maharaja have sanctioned the grant of medals in addition to the usual money prizes offered at the half-yearly Horticultural Shows, subject to the following conditions :—

(1) The medals will consist of a gold medal for classes I, II and III, a silver medal for class V and a bronze medal for class VI.

(2) These medals will be awarded by the Judges, at their discretion, at the Summer Show held in July or August in each year.

(3) The following exhibitors will be qualified for the award of a medal :—

(*a*) The exhibitor of the best all-round exhibit in the appropriate class or classes, taking the two shows of the calendar year together.

(*b*) The exhibitor of an exhibit of more than ordinary excellence in any group.

(*c*) The exhibitor of any specially meritorious novelty.

(4) No exhibitor who has been awarded a medal in any class will be qualified to receive another medal in that class during the three calendar years succeeding that in which he has received the medal.

(5) No exhibitor will be qualified to receive a medal who is not the *bonâ-fide* cultivator of his exhibit or the actual occupant of the garden in which the exhibit was raised, *e.g.*, no contractor, who has merely purchased fruit or vegetables exhibited will be eligible.

(6) It will be open to the Judges to withhold any or all the medals in any year on the ground of deficiency of merit in the exhibits.

The Flower Show opens on Saturday the 5th February at 3-30 P.M.

The Floral Parade takes place at 5-30 P.M.

Vegetables will, if possible, be exhibited till Sunday the 6th, 9-30 A.M., after which they may be sold.

School children will be admitted on Sunday between 1 and 2 P.M.

CLASS VIII.—FLORAL PARADE.

Ladies' Decorated Bicycles ...	15	10	5

Grand Total ... Rs. 1,068

GENERAL CONDITIONS.

1. In view to arrangements being made for staging plants, it is requested that exhibitors will notify to the undersigned, at least four days prior to the Show, what number of pots they intend to enter and for what prize they intend to compete. Entry forms are supplied on application to the Superintendent and exhibitors are requested to use these.

2. The large foliage groups should be ready arranged two days before the Show.

3. Plants intended for competition should be delivered at the Conservatory before 4 P.M. on the day previous to the Show.

4. Cut flowers may be delivered up till 2 P.M. on the day of the Show, but not later if intended for competition.

5. No prize shall be awarded unless there are at least two competitors for it, except in cases of rare excellence, when the Judges will use their own discretion.

The number of exhibits in all classes and sections should exceed the number of prizes offered, otherwise the Judges will be authorised to reduce the full value of such prizes.

6. It shall also be competent for the Judges to reduce the amount of prizes if, in their opinion, the articles exhibited do not merit the full sums.

7. Obtrusive staging, over-crowding, packing to conceal blemishes, and artificial support to blooms, etc., will be judged as defects to an exhibit, preference being given to natural growth and artistic arrangement.

8. Where a number limit is laid down, any exhibit exceeding that number shall be disqualified.

9. Where one plant of each kind or variety is specified as a condition, any exhibit containing duplicates shall be disqualified.

NOTE.—For the purpose of the exhibition the words kinds and varieties may be illustrated as under:—Apples, oranges, figs, grapes, etc., are distinct *kinds* of fruits. Ribston Pippin, Blenheim Orange, Golden Reinette, etc., are distinct *varieties* of apples. Roses, Chrysanthemums, Dahlias, etc., are distinct kinds of flowers. Marechal Niel, Crimson Rambler, La France, etc., are distinct *varieties* of roses. Cabbage, Beans, Beet, Carrot, etc., are distinct *kinds* of vegetables. Sugarloaf, Early Drumhead, Enfield Market, etc., are distinct *varieties* of cabbages.

10. Two or more persons may not compete for prizes separately with plants, etc., from the same garden.

11. If funds are available, the Judges may award special extra prizes in cases of exceptional merit.

12. All exhibits sent for competition must be *bonâ-fide* the produce of, or have been raised by, the exhibitors; and unless otherwise specified, must have been grown in Bangalore.

The Judges may withhold any prize until proof of these conditions be produced. Contractors bringing up fruit and vegetables for competition in their own name can compete for prizes but not for medals.

13. Exhibitors will not be permitted to remove their exhibits until the Show is closed, and gardeners and others found offering articles for sale before 6 P.M., on the day of the Show shall be summarily ejected.

14. No one can be a Judge in any class in which he may be an exhibitor.

15. Similarly, while judging is going on, no exhibitor is permitted to be in the Exhibition and any exhibitor acting contrary after being asked to retire will have his exhibits disqualified.

16. The names of exhibitors can only be attached to exhibits when the judging has been completed.

The following Rules for awarding medals at the Horticultural Shows are hereby notified to the public :—

The Government of His Highness the Maharaja have sanctioned the grant of medals in addition to the usual money prizes offered at the half-yearly Horticultural Shows, subject to the following conditions :—

(1) The medals will consist of a gold medal for classes I, II and III, a silver medal for class V and a bronze medal for class VI.

(2) These medals will be awarded by the Judges, at their discretion, at the Summer Show held in July or August in each year.

(3) The following exhibitors will be qualified for the award of a medal :—

(*a*) The exhibitor of the best all-round exhibit in the appropriate class or classes, taking the two shows of the calendar year together.

(*b*) The exhibitor of an exhibit of more than ordinary excellence in any group.

(*c*) The exhibitor of any specially meritorious novelty.

(4) No exhibitor who has been awarded a medal in any class will be qualified to receive another medal in that class during the three calendar years succeeding that in which he has received the medal.

(5) No exhibitor will be qualified to receive a medal who is not the *bonâ-fide* cultivator of his exhibit or the actual occupant of the garden in which the exhibit was raised, *e.g.*, no contractor, who has merely purchased fruit or vegetables exhibited will be eligible.

CLASS VIII.—FLORAL PARADE.

Ladies' Decorated Bicycles ...	15	10	5
Grand Total .. Rs.	1,068		

GENERAL CONDITIONS.

1. In view to arrangements being made for staging plants, it is requested that exhibitors will notify to the undersigned, at least four days prior to the Show, what number of pots they intend to enter and for what prize they intend to compete. Entry forms are supplied on application to the Superintendent and exhibitors are requested to use these.

2. The large foliage groups should be ready arranged two days before the Show.

3. Plants intended for competition should be delivered at the Conservatory before 4 P.M. on the day previous to the Show.

4. Cut flowers may be delivered up till 2 P.M. on the day of the Show, but not later if intended for competition.

5. No prize shall be awarded unless there are at least two competitors for it, except in cases of rare excellence, when the Judges will use their own discretion.

The number of exhibits in all classes and sections should exceed the number of prizes offered, otherwise the Judges will be authorised to reduce the full value of such prizes.

6. It shall also be competent for the Judges to reduce the amount of prizes if, in their opinion, the articles exhibited do not merit the full sums.

7. Obtrusive staging, over-crowding, packing to conceal blemishes, and artificial support to blooms, etc., will be judged as defects to an exhibit, preference being given to natural growth and artistic arrangement.

8. Where a number limit is laid down, any exhibit exceeding that number shall be disqualified.

9. Where one plant of each kind or variety is specified as a condition, any exhibit containing duplicates shall be disqualified.

NOTE.—For the purpose of the exhibition the words kinds and varieties may be illustrated as under:—Apples, oranges, figs, grapes, etc., are distinct *kinds* of fruits. Ribston Pippin, Blenheim Orange, Golden Reinette, etc., are distinct *varieties* of apples. Roses, Chrysanthemums, Dahlias, etc., are distinct kinds of flowers. Marechal Niel, Crimson Rambler, La France, etc., are distinct *varieties* of roses. Cabbage, Beans, Beet, Carrot, etc., are distinct *kinds* of vegetables. Sugarloaf, Early Drumhead, Enfield Market, etc., are distinct *varieties* of cabbages.

10. Two or more persons may not compete for prizes separately with plants, etc., from the same garden.

11. If funds are available, the Judges may award special extra prizes in cases of exceptional merit.

12. All exhibits sent for competition must be *bona-fide* the produce of, or have been raised by, the exhibitors; and unless otherwise specified, must have been grown in Bangalore.

The Judges may withhold any prize until proof of these conditions be produced. Contractors bringing up fruit and vegetables for competition in their own name can compete for prizes but not for medals.

13. Exhibitors will not be permitted to remove their exhibits until the Show is closed, and gardeners and others found offering articles for sale before 6 P.M., on the day of the Show shall be summarily ejected.

14. No one can be a Judge in any class in which he may be an exhibitor.

15. Similarly, while judging is going on, no exhibitor is permitted to be in the Exhibition and any exhibitor acting contrary after being asked to retire will have his exhibits disqualified.

16. The names of exhibitors can only be attached to exhibits when the judging has been completed.

The following Rules for awarding medals at the Horticultural Shows are hereby notified to the public :—

The Government of His Highness the Maharaja have sanctioned the grant of medals in addition to the usual money prizes offered at the half-yearly Horticultural Shows, subject to the following conditions :—

(1) The medals will consist of a gold medal for classes I, II and III, a silver medal for class V and a bronze medal for class VI.

(2) These medals will be awarded by the Judges, at their discretion, at the Summer Show held in July or August in each year.

(3) The following exhibitors will be qualified for the award of a medal :—

(*a*) The exhibitor of the best all-round exhibit in the appropriate class or classes, taking the two shows of the calendar year together.

(*b*) The exhibitor of an exhibit of more than ordinary excellence in any group.

(*c*) The exhibitor of any specially meritorious novelty.

(4) No exhibitor who has been awarded a medal in any class will be qualified to receive another medal in that class during the three calendar years succeeding that in which he has received the medal.

(5) No exhibitor will be qualified to receive a medal who is not the *bonâ-fide* cultivator of his exhibit or the actual occupant of the garden in which the exhibit was raised, *e.g.*, no contractor, who has merely purchased fruit or vegetables exhibited will be eligible.

(6) It will be open to the Judges to withhold any or all the medals in any year on the ground of deficiency of merit in the exhibits.

The Flower Show opens on Saturday the 5th February at 3-30 P.M.

The Floral Parade takes place at 5-30 P.M.

Vegetables will, if possible, be exhibited till Sunday the 6th, 9-30 A.M., after which they may be sold.

REVENUE COMMISSIONER'S OFFICE,
Dated Bangalore, 8th March 1910.

A. RANGASWAMI IYENGAR,
Revenue Commissioner.

The Mysore Gazette.

Vol. 45.] PUBLISHED BY AUTHORITY. [No. 10.

BANGALORE, THURSDAY, MARCH 10, 1910.

PART III.

Legislative Measures and Rules thereunder.

NOTIFICATIONS.

No. Fl. 4165—S. R. 15-09-2, dated 19th February 1910.

In exercise of the powers conferred by Section 9 of the Mysore Stamp Regulation, II of 1900, it is hereby notified that the Government of His Highness the Maharaja of Mysore are pleased to remit the stamp duty payable on receipts granted by the Officer in charge of the Palace Establishments when acting on behalf of the Personal Estate Accounts of the Members of the Ruling Family.

By Order,

C. S. BALASUNDARAM IYER,
Officiating Secretary to Government,
General and Revenue Departments.

No. 198—L. C., dated Bangalore, the 8th March 1910.

Addendum to the Bill to consolidate and amend the law relating to the Courts of Small Causes in Mysore.

The following shall be added as clauses 14A and 14B to the above Bill published with Notification No. 246—L. C., dated the 3rd March 1909, in the Gazette issue of 4th idem, and to the statement of objects and reasons appended thereto :—

"14A. In every case in which satisfactory proof shall not be given entitling either the plaintiff or the defendant to judgment, a Court of Small Causes shall have power to non-suit the plaintiff, provided that a plaintiff who has been non-suited under this section may, subject to the law of limitation, bring a fresh suit on the same cause of action.

14B. In all suits where the amount claimed shall exceed one hundred rupees, it shall be lawful for the plaintiff or the defendant to require the suit to be tried by a composite Court, on his depositing such costs and furnishing such security and giving such notice as may be determined by the Court, in accordance with rules to be framed in this behalf by the Chief Court.

When such an application has been made and allowed, the case shall be heard by a Court composed of the Judge of the Court in which the suit has been instituted, another Judge of a Civil Court not superior in rank to such Judge or, where there is no such Judge present at the place, a Magistrate to be deputed by the Magistrate of the district, and two jurors to be selected in accordance with rules to be framed in this behalf by the Chief Court.

The Judge of the Court in which the suit has been filed shall preside at the trial and shall have a casting vote whenever the members are equally divided in opinion ; and judgment shall be delivered according to the opinion of a majority of the members of the composite Court."

Addition to the Statement of Objects and Reasons.

"The provisions contained in clauses 14A and 14B relating to non-suiting and trial of suits by composite courts, *i. e.*, courts composed of Judges and Jury are new and are based on Sections 93, 101 and 102 of the English County Courts Act, 1888."

By Order,
S. HIRIYANNAIYA,
Secretary, Mysore Legislative Council.

DISTRICT REPORTS.

8. Markets how supplied.

9. Progress of agricultural operations, state of standing crops, prospects and probable outturn of harvests, serious damage done to crops by insects or other natural calamities.

10. Prospects of season, tracts in which the rainfall has been insufficient, areas affected by scarcity, number of people under relief, and state of food stocks.

11. Public health.

12. Remarks as to the condition of agricultural stock, failure of pasturage of fodder, etc.

BANGALORE CIVIL AND MILITARY STATION.

	Average for the past five years of the corresponding week.	*Current.*	
Prices of food grains—Rice ...	6·5	7 to 7¼	seers per rupee.
Ragi ...	14·8	13½ to 14	

Rangoon rice, 2nd sort, is sold at 8¼ seers per rupee.

Agricultural operations.—Collecting manure.

Probable outturn of harvests.—Paddy, yield 12 annas; and ragi, yield 8 annas.

Cattle are in good condition. Water and fodder are sufficient.

BANGALORE CITY AND TALUKS.

8. Market well supplied.

9. *Agricultural operations.*—Lands are being ploughed and manured in parts of the Bangalore, Magadi, Devanhalli and Nelamangala Taluks.

Standing crops.—Sugar-cane and Vaisakhi paddy are in good condition.

Crops sown.—Sugar-cane in parts of the Bangalore, Dodballapur, Magadi and Devanhalli Taluks, and the Closepet Sub-Taluk.

Crops harvested.—Sugar-cane in parts of the Bangalore, Dodballapur, Magadi and the Devanhalli Taluks and the Closepet Sub-Taluk.

Estimated outturn of harvests.—Sugar-cane in parts of the Devanhalli Taluk and the Closepet Sub-Taluk, yield from 8 to 12 annas, and 12 annas, respectively.

10. Prospects of the season are fair, but Vaisakhi paddy in parts of the Dodballapur Taluk is badly in need of rain. Food stuffs are sufficiently available. Labor is available to the cooly classes.

11. Except for small-pox and measles in parts of the Hoskote, Magadi and Devanhalli Taluks, public health is generally good. Plague is subsiding in Channapatna.

12. Cattle are healthy. Water, pasture and fodder are available.

KOLAR.

8. Market well supplied.

9. *Agricultural operations.*—Ploughing fields for cultivating sugar-cane and dry crops and milling of sugar-cane are being carried on.

Standing crops are reported to be in good condition.

Crops sown.—Sugar-cane in the Kolar, Bowringpet, Sidlaghatta, Goribidnur and Malur Taluks and the Gudibanda Sub-Taluk and paddy in the Goribidnur Taluk.

Crops harvested and their outturn.—Sugar-cane in Kolar and Malur, yield from 8 to 12 annas; paddy in Bowringpet and Bagepalli, yield from 8 to 12 annas and from 12 to 16 annas, respectively; jola in the Bagepalli and Goribidnur Taluks, yield from 6 to 8 annas; Bengal gram in the Bagepalli Taluk, yield 2 annas.

10. Prospects of the season are good. Food stuffs are available. Rain is insufficient. Labor is available to the cooly classes.

11. Except for small-pox in parts of the Kolar, Bowringpet and Bagepalli Taluks and cholera in the Kolar, Chintamani and Bagepalli Taluks, public health is generally good.

12. Cattle are reported to be healthy. Water and fodder are sufficient.

TUMKUR.

8. Market well supplied.

9. *State of standing crops.*—Their condition is good in Maddagiri, Chiknayakanhalli, Kunigal and Turuvekere and parts of Sira, and fair in Tumkur, Gubbi, Tiptur, Koratagere and parts of Pavagada. In Sira crops irrigated by both wells and tanks are in good condition, whereas those under tanks alone are withering. In parts of Pavagada, crops have withered for want of water in irrigation wells.

Crops sown.—Paddy in Turuvekere.

Crops harvested.—Paddy in Maddagiri, Sira and Koratagere; jola in Pavagada; Bengal gram in Chiknayakanhalli, Tiptur and Pavagada; sugar-cane in Sira, Kunigal, Koratagere and Turuvekere; and cotton in Sira and Pavagada.

10. Prospects of the season are fair on the whole. Prices of food grains are almost the same as in the previous week.

11. Except for small-pox prevailing in a few villages of the Chiknayakanhalli and Gubbi Taluks and plague at Chiknayakanhalli, public health is generally good.

12. "Foot and mouth" disease at a village in the Chiknayakanhalli Taluk and "Chappe Roga" at a village in the Gubbi Tuluk are prevailing among cattle. "Dod Roga" has made its appearance in a few villages of the Pavagada Taluk. Water and fodder are available in all parts of the district, except in a few villages of the Sira Taluk and the whole of the Pavagada Taluk, where they are available in limited quantities only.

*Suspicious cases of cholera.

G. S. DAVID,
For *Sanitary Commissioner with the Government of Mysore.*

No. R. 7377—Agri. 112-09-2, dated 27th April 1910.

The following prospectus of the Fourth Agricultural and Industrial Exhibition proposed to be held at Oachira in June 1910 is hereby published for general information.

By Order,
C. S. BALASUNDARAM IYER,
Officiating Secretary to Government,
General and Revenue Departments.

THE FOURTH
OACHIRA AGRICULTURAL AND INDUSTRIAL EXHIBITION, 1910.

PROSPECTUS.

1. The Exhibition will be opened on the 15th June 1910 and will continue till the 20th. R. C. Culling Carr, Esq., I.C.S., the British Resident of Travancore and Cochin, has kindly consented to preside at the opening of the Exhibition if other business permits. With a view to make the Exhibition successful and useful, it is proposed to have lectures on subjects connected with Industry and Agriculture. Demonstrations will also be arranged.

2. The general work in connection with the Exhibition will vest in a committee of one hundred members selected from different parts of Travancore. The management of the Exhibition will be in the hands of an executive committee consisting of the following gentlemen:—

1. Mr. N. Padmanabha Pillay, Vakil, Krishnapuram, Editor and Proprietor, "Vyavasaya Chandrika," Kayamkulam (Secretary).
2. Dr. N. Kunjan Pillay, M.A., B.SC., PH.D., Director of Agriculture, Trivandram.

5. ,, V. Andy Pillay, B.A., 2nd Class Magistrate, Kayamkulam.
6. ,, V. Padmanabha Iyer, B.A., Thasildar, Karunagapalli.
7. ,, K. Govinda Pillay, Vakil, Krishnapuram (S. M. P. Member, 1084).
8. ,, Perumana Velu Pillay, Karthigapalli, (S. M. P. Member).
9. ,, Kannampallil Oomminy Pillay, Karunagapalli.
10. ,, Vellangad Neelakanda Pillay, Karunagapalli.
11. ,, Kochukaleekkel Oomminy Pillay, Krishnapuram.
12. ,, Alakottu Sanku Pillay, Krishnapuram.
13. ,, P. N. Narayana Pillay, Vakil, Krishnapuram.
14. ,, P. Padmanabha Pillay, B.A., Neyyoor, Eraniel.
15. ,, E. N. Keshava Pillay, B.A., Karthigapalli.
16. ,, Thazhoorethu Palpoo Pillay, Thazhava.
17. ,, K. Kunju Panicken, Vakil, Krishnapuram, (S. M. P. Member).
18. ,, M. Narayana Pillay, Kannamangalam, Mavelikara.
19. ,, G. Krishna Pillay, Vakil, Krishnapuram.
20. ,, A. Krishna Pillay, Puthenpurail Eruvey, Kayamkulam.

3. All articles of indigenous growth or manufacture and natural or agricultural products from all parts of Southern India will be admitted to the Exhibition.

4. Intending Exhibitors are requested to apply to the Secretary of the Exhibition Committee before the 18th May 1910. In this application they must give full particulars of their Exhibits and the group, etc., under which they fall. Information whether covered or open space is required should also be given.

5. Exhibits will be received every day from the 2nd June 1910 till two days before the commencement of the Exhibition. But perishable articles will be received up to 6 P.M. on the day preceding the opening of the Exhibition.

6. Exhibits which could be sent in parcels should be sent in packages, the charges being always borne by Exhibitors. All Exhibits should be accompanied with a list in duplicate giving the description of Exhibits, the name of the Exhibitor, and the price if for sale. In case of valuable Exhibits, Exhibitors must bring them personally or send them by their

Agents. In the case of agricultural produce the particulars with regard to their cultivation should also be furnished.

7. The Exhibition Authorities will provide ordinary stalls for the display of the Exhibits, but any arrangement requiring construction should be carried out by the Exhibitors at their own cost, but in accordance with the plans approved of by the Exhibition authorities. The Exhibition authorities will, as far as possible, make arrangements for the above, provided that application for it is made in time and the estimated costs are paid in advance.

8. The Exhibition authorities will guard the premises of the Exhibition and will afford facilities as far as possible to the Exhibitors in connection with the transport, display, preservation and sale of their Exhibits. They do not, however, hold themselves responsible for any damage or loss however occurring.

9. Medals, money prizes or certificates of merit will be awarded to Exhibits according to the decision of the judges.

10. Exhibits may be sold with the permission of the Secretary, during the Exhibition, but they shall not be removed till after the close of the Exhibition.

11. Exhibits must be removed within three days after the close of the Exhibition, after which period they will be removed and kept at the risk and expense of the Exhibitor. Any Exhibit not claimed and removed by the Exhibitor within seven days after the close of the Exhibition will be sold and the proceeds disposed of at the discretion of the Exhibition authorities. Exhibitors may arrange with the Secretary for the return of their goods on payment in advance of the estimated costs and charges.

12. Admission into the Exhibition grounds shall be only by tickets, which will be sold at rates to be fixed later on.

13. The Secretary may remove from the Exhibition grounds the Exhibits of any Exhibitor who does not comply with the rules.

14. It is proposed to hold a weaving competition in the Exhibition grounds to ascertain the skil of the weavers and the efficiency of the looms. The details in regard to this will be published shortly. Mr. P. N. Narayana Pillay, vakil, Krishnapuram, has promised to place at the disposal of the Exhibition committee a gold medal to be given in memory of the late Mr. G. Parameswarn Pillay, B.A., Bar.-at-law. This medal will be awarded to the successful weaving competitor. A ploughing competition will also be arranged. Those who intend to compete are requested to apply to the Secretary not later than the 28th May 1910.

15. It is hoped that the Agricultural and Industrial Associations and public bodies will help the Exhibition Committee with Exhibits and otherwise.

	Commences at 5-30 P.M.			
	Ladies' Decorated Bicycles ...	15	10	5
	Grand Total ... Rs.		1,149	

GENERAL CONDITIONS.

1. In view to arrangements being made for staging plants, it is requested that exhibitors will notify to the undersigned, at least four days prior to the Show, what number of pots they intend to enter and for what prize they intend to compete. Entry forms are supplied on application to the Superintendent and exhibitors are requested to use these.

2. The large foliage groups should be ready arranged two days before the Show.

3. Plants intended for competition should be delivered in the Conservatory before 4 P.M. on the day previous to the Show.

4. Cut flowers may be delivered up till 2 P.M. on the day of the Show, but not later if intended for competition.

5. No prize shall be awarded unless there are at least two competitors for it, except in cases of rare excellence, when the Judges will use their own discretion.

The number of exhibits in all classes and sections should exceed the number of prizes offered, otherwise the Judges will be authorised to reduce the full value of such prizes.

6. It shall also be competent for the Judges to reduce the amount of prizes if, in their opinion, the articles exhibited do not merit the full sums.

7. Obtrusive staging, over-crowding, packing to conceal blemishes, and artificial support to blooms, etc., will be judged as defects to an exhibit, preference being given to natural growth and artistic arrangement.

8. Where a number limit is laid down, any exhibit exceeding that number shall be disqualified.

9. Where one plant of each kind or variety is specified as a condition, any exhibit containing duplicates shall be disqualified.

NOTE.—For the purpose of the exhibition the words kinds and varieties may be illustrated as under:—Apples, oranges, figs, grapes, etc., are distinct *kinds* of fruits. Ribston Pippin, Blenheim Orange, Golden Reinette, etc., are distinct *varieties* of apples. Roses, Chrysanthemums, Dahlias, etc., are distinct kinds of flowers. Marechal Niel, Crimson Rambler, La France, etc., are distinct *varieties* of roses. Cabbage, Beans, Beet, Carrot, etc., are distinct *kinds* of vegetables. Sugarloaf, Early Drumhead, Enfield Market, etc., are distinct *varieties* of cabbages.

10. Two or more persons may not compete for prizes separately with plants, etc., from the same garden.

11. If funds are available, the Judges may award special extra prizes in cases of exceptional merit.

12. All exhibits sent for competition must be *bonâ fide* the produce of, or have been raised by, the exhibitors; and unless otherwise specified, must have been grown in Bangalore.

The Judges may withhold any prize until proof of these conditions be produced. Contractors bringing up fruit and vegetables for competition in their own name can compete for prizes but not for medals.

13. Exhibitors will not be permitted to remove their exhibits until the Show is closed, and gardeners and others found offering articles for sale before 6 P.M., on the day of the Show shall be summarily ejected.

14. No one can be a Judge in any class in which he may be an exhibitor.

15. Similarly, while judging is going on, no exhibitor is permitted to be in the Exhibition and any exhibitor acting contrary after being asked to retire will have his exhibits disqualified.

16. The names of exhibitors can only be attached to exhibits when the judging has been completed.

The following Rules for awarding medals at the Horticultural Shows are hereby notified to the public:—

The Government of His Highness the Maharaja have sanctioned the grant of medals in addition to the usual money prizes offered at the half-yearly Horticultural Shows, subject to the following conditions:—

(1) The medals will consist of a gold medal for classes I, II and III, a silver medal for class V and a bronze medal for class VI.

(2) These medals will be awarded by the Judges, at their discretion, at the Summer Show held in July or August in each year.

(3) The following exhibitors will be qualified for the award of a medal:—

(*a*) The exhibitor of the best all-round exhibit in the appropriate class or classes, taking the two shows of the calendar year together.

(*b*) The exhibitor of an exhibit of more than ordinary excellence in any group.

(*c*) The exhibitor of any specially meritorious novelty.

(4) No exhibitor who has been awarded a medal in any class will be qualified to receive another medal in that class during the three calendar years succeeding that in which he has received the medal.

(5) No exhibitor will be qualified to receive a medal who is not the *bonâ-fide* cultivator of his exhibit or the actual occupant of the garden in which the exhibit was raised, *e.g.*, no contractor who has merely purchased fruit or vegetables exhibited will be eligible.

(6) It will be open to the Judges to withhold any or all the medals in any year on the ground of deficiency of merit in the exhibits.

The Flower Show opens on Saturday the 6th August 1910 at 3-30 P.M.

The Floral Parade takes place at 5-30 P.M.

Vegetables will, if possible, be exhibited till Sunday the 7th, 9-30 A.M., after which they may be sold.

MYSORE AGRICULTURAL DEPARTMENT.

CIRCULAR No. 1.

Koleroga of Supari.

Government have gone to considerable expense in the investigation of the serious disease known as Koleroga of Supari. The disease has been found to be due to a fungus which lives in and on the nuts and which is able to spread very rapidly from one nut and from one bunch to another, under favorable conditions. A method of combating this disease has been tried extensively during the past year and in every case has shown itself to give better results than the ordinary method of tying kottes. The actual figures that show this are being published in a Kanarese bulletin which is now being printed. The cost of the materials required for treating one acre will vary from Rs. 3 and Rs. 5 depending upon the number of trees and the size of the bunches.

The Agricultural Department has purchased a number of sprayers to apply this material to the bunches and has placed four in each taluk head-quarters. In addition, special men have been appointed to superintend the spraying and see that it is properly done. It is earnestly hoped that garden owners will give this method a thorough trial. The expense is so light as to be much less than that of the tying of kottes where kottes have to be bought. About 20 garden owners in various parts of the malnad have already expressed a desire to have a part of their gardens treated. It is hoped therefore that others wishing to try the method will apply at once to the following: for Sagar and Nagar Taluks, to Mr. N. K. Venkata Rao, Assistant Mycologist stationed at Sagar. For Tirthahalli and Koppa Taluks, to Mr. E. S. Ramaswami Iyer, Agricultural Inspector stationed at Tirthahalli. As this Department is going to considerable expense in the matter and is furnishing sprayers and men for the work, it is thought only just that garden owners should bear the small expense of the materials used which are being supplied at wholesale cost price. As stated, the total cost will be about Rs. 3 and will never exceed Rs. 5. In any case garden owners will be charged only for the actual amount used. I trust that many garden owners may be willing to have about half to one acre of their gardens sprayed under these conditions. They will then be able to judge for themselves as to the usefulness of the treatment. As spraying to be effectual should be done before the rains set in, it is necessary for garden owners to apply *at once* if they wish any spraying done.

CLASS VIII.—FLORAL PARADE.

Commences at 5-30 P.M.

Ladies' Decorated Bicycles ...	15	10	5

Grand Total .. Rs. 1,149

GENERAL CONDITIONS.

1. In view to arrangements being made for staging plants, it is requested that exhibitors will notify to the undersigned, at least four days prior to the Show, what number of pots they intend to enter and for what prize they intend to compete. Entry forms are supplied on application to the Superintendent and exhibitors are requested to use these.

2. The large foliage groups should be ready arranged two days before the Show.

3. Plants intended for competition should be delivered in the Conservatory before 4 P.M. on the day previous to the Show.

4. Cut flowers may be delivered up till 2 P.M. on the day of the Show, but not later if intended for competition.

5. No prize shall be awarded unless there are at least two competitors for it, except in cases of rare excellence, when the Judges will use their own discretion.

The number of exhibits in all classes and sections should exceed the number of prizes offered, otherwise the Judges will be authorised to reduce the full value of such prizes.

6. It shall also be competent for the Judges to reduce the amount of prizes if, in their opinion, the articles exhibited do not merit the full sums.

7. Obtrusive staging, over-crowding, packing to conceal blemishes, and artificial support to blooms, etc., will be judged as defects to an exhibit, preference being given to natural growth and artistic arrangement.

8. Where a number limit is laid down, any exhibit exceeding that number shall be disqualified.

9. Where one plant of each kind or variety is specified as a condition, any exhibit containing duplicates shall be disqualified.

NOTE.—For the purpose of the exhibition the words kinds and varieties may be illustrated as under:—Apples, oranges, figs, grapes, etc., are distinct *kinds* of fruits. Ribston Pippin, Blenheim Orange, Golden Reinette, etc., are distinct *varieties* of apples. Roses, Chrysanthemums, Dahlias, etc., are distinct kinds of flowers. Marechal Niel, Crimson Rambler, La France, etc., are distinct *varieties* of roses. Cabbage, Beans, Beet, Carrot, etc., are distinct *kinds* of vegetables. Sugarloaf, Early Drumhead, Enfield Market, etc., are distinct *varieties* of cabbages.

10. Two or more persons may not compete for prizes separately with plants, etc., from the same garden.

11. If funds are available, the Judges may award special extra prizes in cases of exceptional merit.

12. All exhibits sent for competition must be *bonâ fide* the produce of, or have been raised by, the exhibitors; and unless otherwise specified, must have been grown in Bangalore.

The Judges may withhold any prize until proof of these conditions be produced. Contractors bringing up fruit and vegetables for competition in their own name can compete for prizes but not for medals.

13. Exhibitors will not be permitted to remove their exhibits until the Show is closed, and gardeners and others found offering articles for sale before 6 P.M., on the day of the Show shall be summarily ejected.

14. No one can be a Judge in any class in which he may be an exhibitor.

15. Similarly, while judging is going on, no exhibitor is permitted to be in the Exhibition and any exhibitor acting contrary after being asked to retire will have his exhibits disqualified.

16. The names of exhibitors can only be attached to exhibits when the judging has been completed.

The following Rules for awarding medals at the Horticultural Shows are hereby notified to the public:—

The Government of His Highness the Maharaja have sanctioned the grant of medals in addition to the usual money prizes offered at the half-yearly Horticultural Shows, subject to the following conditions:—

(1) The medals will consist of a gold medal for classes I, II and III, a silver medal for class V and a bronze medal for class VI.

(2) These medals will be awarded by the Judges, at their discretion, at the Summer Show held in July or August in each year.

(3) The following exhibitors will be qualified for the award of a medal:—

(*a*) The exhibitor of the best all-round exhibit in the appropriate class or classes, taking the two shows of the calendar year together.

(*b*) The exhibitor of an exhibit of more than ordinary excellence in any group.

(*c*) The exhibitor of any specially meritorious novelty.

(4) No exhibitor who has been awarded a medal in any class will be qualified to receive another medal in that class during the three calendar years succeeding that in which he has received the medal.

(5) No exhibitor will be qualified to receive a medal who is not the *bonâ-fide* cultivator of his exhibit or the actual occupant of the garden in which the exhibit was raised, *e.g.*, no contractor who has merely purchased fruit or vegetables exhibited will be eligible.

(6) It will be open to the Judges to withhold any or all the medals in any year on the ground of deficiency of merit in the exhibits.

The Flower Show opens on Saturday the 6th August 1910 at 3-30 P.M.

The Floral Parade takes place at 5-30 P.M.

Vegetables will, if possible, be exhibited till Sunday the 7th, 9-30 A.M., after which they may be sold.

School children will be admitted on Sunday between 7 and 11 A.M.

MYSORE AGRICULTURAL DEPARTMENT.

CIRCULAR No. 1.

Koleroga of Supari.

Government have gone to considerable expense in the investigation of the serious disease known as Koleroga of Supari. The disease has been found to be due to a fungus which lives in and on the nuts and which is able to spread very rapidly from one nut and from one bunch to another, under favorable conditions. A method of combating this disease has been tried extensively during the past year and in every case has shown itself to give better results than the ordinary method of tying kottes. The actual figures that show this are being published in a Kanarese bulletin which is now being printed. The cost of the materials required for treating one acre will vary from Rs. 3 and Rs. 5 depending upon the number of trees and the size of the bunches.

The Agricultural Department has purchased a number of sprayers to apply this material to the bunches and has placed four in each taluk head-quarters. In addition, special men have been appointed to superintend the spraying and see that it is properly done. It is earnestly hoped that garden owners will give this method a thorough trial. The expense is so light as to be much less than that of the tying of kottes where kottes have to be bought. About 20 garden owners in various parts of the malnad have already expressed a desire to have a part of their gardens treated. It is hoped therefore that others wishing to try the method will apply at once to the following: for Sagar and Nagar Taluks, to Mr. N. K. Venkata Rao, Assistant Mycologist, stationed at Sagar. For Tirthahalli and Koppa Taluks, to Mr. E. S. Ramaswami Iyer, Agricultural Inspector, stationed at Tirthahalli. As this Department is going to considerable expense in the matter and is furnishing sprayers and men for the work, it is thought only just that garden owners should bear the small expense of the materials used which are being supplied at wholesale cost price. As stated, the total cost will be about Rs. 3 and will never exceed Rs. 5. In any case garden owners will be charged only for the actual amount used. I trust that many garden owners may be willing to have about half to one acre of their gardens sprayed under these conditions. They will then be able to judge for themselves as to the usefulness of the treatment. As spraying to be effectual should be done before the rains set in, it is necessary for garden owners to apply *at once* if they wish any spraying done.

REVENUE COMMISSIONER'S OFFICE,
Dated Bangalore, 23rd May 1910.

A. RANGASWAMI IYENGAR,
Revenue Commissioner in Mysore.

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ.—The following Proceedings of the Government of Madras, approving of the draft of the revised rules for the sale of quinine in post offices and introducing the sale of ten-grain powders from 15th October 1910:—

GOVERNMENT OF MADRAS.

REVENUE DEPARTMENT.

READ—the following papers:—

I. G. O. No. 2694, *Revenue, dated* 1*st October* 1909.

ABSTRACT.—Passing orders on certain suggestions made by the Government of India on the subject of the price that should be charged for quinine supplied to Native States, Local Fund and Municipal hospitals, etc., and other Local Governments.

II. G. O. Mis. No. 500, *Revenue, dated* 15*th February* 1910.

ABSTRACT.—Passing orders on the suggestion of the Director, Government Cinchona Plantations, in regard to the revision of the rules for the sale of quinine in post offices.

III. Letter from H. V. Ryan, Esq., Acting Director, Government Cinchona Plantations, the Nilgiris, to the Secretary to Government, Revenue Department, dated Ootacamund, the 7th March 1910, No. 15:—

"With reference to paragraph 2 of G. O. No. 2694, Revenue, dated the 1st October 1909, I have the honor to forward a revised set of rules for sale of quinine at post offices, which have been sent to this office by the Postmaster-General, Madras."

Order No. 1205, *Revenue, dated* 12*th April* 1910.

Miscellaneous.

The draft rules for the sale of quinine in post offices received with the Director's letter read above are approved.

2. The Government resolve to introduce the new system of selling quinine in ten-grain powders in this Presidency and at the Imperial post offices in Coorg and in the Native States of Mysore, Hyderabad, Travancore, Cochin, Sandur and Banganapalle on the 15th October 1910.

The notification and rules published on pages 1305—1306 of Part I of the *Fort St. George Gazette* dated the 20th December 1904, will be cancelled and in their place the notification and rules appended to this order will be published in English and the chief vernacular languages in the *Fort St. George Gazette* and in the village sheets of the District Gazettes.

3. The Director, Government Cinchona Plantations, will arrange, in communication with the Postmaster-General, to recover from all postmasters on the abovementioned date the seven-grain powders remaining unsold with the balance in cash, if any, required to make up the amount of their permanent advance and to supply them with the new permanent advance of ten-grain packets for sale from that date.

Similar arrangements will be made in consultation with the Collectors in those districts in which quinine powders are sold by the Revenue officials, and the Collectors concerned will be requested to publish the necessary notification of the impending change.

4. The Political Agents for Sandur and Banganapalle are requested to give due publication of the proposed change in those States.

5. The Residents at Hyderabad and in Mysore, Travancore and Cochin and the Chief Commissioner of Coorg will be addressed.'

NOTIFICATION.

It is hereby notified, for general information, that the sale of seven-grain quinine powders by Revenue officials and postmasters in this Presidency, and at the Imperial post offices in Coorg and in the Native States of Hyderabad, Mysore, Travancore, Cochin, Sandur and Banganapalle will be discontinued on the 15th October 1910 and in their place ten-grain powders will be issued for sale at the rate of 3 pies per powder from the same date. The following amended rules for the sale of quinine at post offices are published for general information in supersession of those published on pages 1305 and 1306 of Part I of the *Fort St. George Gazette* dated the 20th December 1904 :—

Rules for the sale of Government Quinine at Post Offices.

1. Government quinine manufactured at the Nedivattam factory will be kept for sale at all post offices in the Madras Presidency (with the exception of those noted in the margin) and in Coorg and also at all the Imperial post offices in the Native States of Sandur, Banganapalle, Cochin, Hyderabad, Travancore and Mysore.

Post offices in the district of Madras and in the towns of the Chingleput District which are suburbs of Madras town.

Note.—It must be understood that these rules do not apply to post offices in the Native State of Pudukottai.

2. The Director of the Government Cinchona Plantations, the Nilgiris, will arrange for the supply of the quinine direct to each post office in small packets, each containing 100 ten-grain powders, to be sold at the rate of 3 pies per powder.

3. The amount to be accounted for by the post office on each packet will be Rs. 1-5-0 and the 4 annas in excess which will be realized by the sale of the 100 powders will be the vendor's commission on the sales effected by him.

4. Seven packets each containing 100 powders will be issued to each of the head and sub-offices in the circle and to each of the branch offices in the Shimoga division and the value of those packets, *viz.*, Rs. 9-3-0, at the rate of Rs. 1-5-0 per packet, is to be considered as a permanent advance for quinine in those offices. Three packets each containing 100 powders will be issued to each of the other branch offices in the circle and the value of those packets, *viz.*, Rs. 3-15-0, at the rate of Rs. 1-5-0 per packet, is to be considered as a permanent advance for quinine in those offices.

5. All head and sub-postmasters in the circle and branch postmasters in the Shimoga division must replenish their stock of quinine as soon as they have sold five packets by indenting on the Director of the Government Cinchona Plantations, Ootacamund, while other branch postmasters must replenish their stock in the same manner as soon as they have sold two packets. It will be the postmaster's duty to see that his stock is regularly replenished in time before the supply is exhausted.

6. Each indent for a fresh supply of quinine must be accompanied by a remittance made by money order for the value of the packets indented for, at the rate of Rs. 1-5-0 per packet, less the money order commission on the total value of the remittance.

7. Any quantity of quinine may be indented for at a time, provided that the indent is for not less than five packets of 100 powders each in the case of post offices whose permanent advance is Rs. 9-3-0, and not less than two packets of 100 powders each in the case of post offices whose permanent advance is Rs. 3-15-0, and that it does not include a fraction of a packet.

8. The indent for a fresh supply of quinine must always be written on the coupon of the money order, in the form given below:—

"Please send by return post two, five or six packets (as the case may be) of quinine powders."

_____Name.

_____Postmaster.

Date_____ Name stamp.

The amount remitted as well as the commission for the money order should be met by the postmaster from the sale proceeds of quinine held as a permanent advance. The money order should be made payable to the Director of the Government Cinchona Plantations, Ootacamund. The postmaster should clearly impress the name stamp of his office at the bottom of the coupon containing the indent in order that the name of the office to which the quinine is to be forwarded may be readily ascertained.

9. When the charge of an office is transferred, the full amount of the permanent advance of 700 powders of quinine in the case of head and sub-offices, and branch offices in the Shimoga division and of 300 powders of quinine in the case of the other branch offices, must be made over to the relieving official and it may be either in quinine or in cash or partly in quinine and partly in cash; but for every one anna and nine pies thus made over in cash, 4 pies may be deducted (being the commission on the sale of 7 powders) from the permanent advance. No commission is allowed on the sale of any number less than 7 powders. The transfer of the permanent advance in the manner described above on account of quinine must be entered at the foot of the charge report forwarded to the Superintendent.

10. Communications on the subject to the Director of the Government Cinchona Plantations, the Nilgiris, may be sent on postal service, but, with this exception, everything relating to the transmission of quinine and the remittance of money to pay for it will be at the charge of the Government Cinchona Department.

11. The packets containing the powders of quinine must not be exposed to damp, as otherwise the quinine may deteriorate.

12. Superintendents and Inspectors when verifying the accounts of first class head offices and inspecting other post offices authorized to vend quinine should examine the permanent advance for quinine and see that it is correct. They should also make careful inquiries as to the manner in which the instructions conveyed in rule 11 are carried out and make notes in their verification or inspection reports on the progress of the scheme and of any matters of interest or importance in connection therewith.

6.	Garden Furniture	8	4	0
	Total ...			60

NOTE.—Group 1. As it is very desirabe to subject implements in this class to a practical trial, a plot of ground will be made available near the Glass House and all exhibitors desiring to work their implements may do so on Saturday the 6th from 7 to 9 A.M. and from 4 to 6 P.M. *Group* 4: articles such as garden seats, tubs, garden tables, jardinieres, etc.

CLASS VIII.—FLORAL PARADE.

Commences at 5-30 P.M.

Ladies' Decorated Bicycles ...	15	10	5

Grand Total ... Rs. 1,149.

GENERAL CONDITIONS.

1. In view to arrangements being made for staging plants, it is requested that exhibitors will notify to the undersigned, at least four days prior to the Show, what number of pots they intend to enter and for what prize they intend to compete. Entry forms are supplied on application to the Superintendent and exhibitors are requested to use these.

2. The large foliage groups should be ready arranged two days before the Show.

3. Plants intended for competition should be delivered in the Conservatory before 4 P.M. on the day previous to the Show.

4. Cut flowers may be delivered up till 2 P.M. on the day of the Show, but not later if intended for competition.

5. No prize shall be awarded unless there are at least two competitors for it, except in cases of rare excellence, when the Judges will use their own discretion.

The number of exhibits in all classes and sections should exceed the number of prizes offered, otherwise the Judges will be authorised to reduce the full value of such prizes.

6. It shall also be competent for the Judges to reduce the amount of prizes if, in their opinion, the articles exhibited do not merit the full sums.

7. Obtrusive staging, over-crowding, packing to conceal blemishes, and artificial support to blooms, etc., will be judged as defects to an exhibit, preference being given to natural growth and artistic arrangement.

8. Where a number limit is laid down, any exhibit exceeding that number shall be disqualified.

9. Where one plant of each kind or variety is specified as a condition, any exhibit containing duplicates shall be disqualified.

NOTE.—For the purpose of the exhibition the words kinds and varieties may be illustrated as under:—Apples, oranges, figs, grapes, etc., are distinct *kinds* of fruits. Ribston Pippin, Blenheim Orange, Golden Reinette, etc., are distinct *varieties* of apples. Roses, Chrysanthemums, Dahlias, etc., are distinct kinds of flowers. Marechal Niel, Crimson Rambler, La France, etc., are distinct *varieties* of roses. Cabbage, Beans, Beet, Carrot, etc., are distinct *kinds* of vegetables. Sugarloaf, Early Drumhead, Enfield Market, etc., are distinct *varieties* of cabbages.

10. Two or more persons may not compete for prizes separately with plants, etc., from the same garden.

11. If funds are available, the Judges may award special extra prizes in cases of exceptional merit.

12. All exhibits sent for competition must be *bonâ fide* the produce of, or have been raised by, the exhibitors, and unless otherwise specified, must have been grown in Bangalore.

The Judges may withhold any prize until proof of these conditions be produced. Contractors bringing up fruit and vegetables for competition in their own name can compete for prizes but not for medals.

13. Exhibitors will not be permitted to remove their exhibits until the Show is closed, and gardeners and others found offering articles for sale before 6 P.M., on the day of the Show, shall be summarily ejected.

14. No one can be a Judge in any class in which he may be an exhibitor.

15. Similarly, while judging is going on, no exhibitor is permitted to be in the Exhibition and any exhibitor acting contrary after being asked to retire will have his exhibits disqualified.

16. The names of exhibitors can only be attached to exhibits when the judging has been completed.

The following Rules for awarding medals at the Horticultural Shows are hereby notified to the public:—

The Government of His Highness the Maharaja have sanctioned the grant of medals in addition to the usual money prizes offered at the half-yearly Horticultural Shows, subject to the following conditions:—

(1) The medals will consist of a gold medal for classes I, II and III, a silver medal for class V and a bronze medal for class VI.

(2) These medals will be awarded by the Judges, at their discretion, at the Summer Show held in July or August in each year.

(3) The following exhibitors will be qualified for the award of a medal:—

(*a*) The exhibitor of the best all-round exhibit in the appropriate class or classes, taking the two shows of the calendar year together.

(*b*) The exhibitor of an exhibit of more than ordinary excellence in any group.

(*c*) The exhibitor of any specially meritorious novelty.

(4) No exhibitor who has been awarded a medal in any class will be qualified to receive another medal in that class during the three calendar years succeeding that in which he has received the medal.

(5) No exhibitor will be qualified to receive a medal who is not the *bonâ-fide* cultivator of his exhibit or the actual occupant of the garden in which the exhibit was raised, *e.g.*, no contractor who has merely purchased fruit or vegetables exhibited will be eligible.

(6) It will be open to the Judges to withhold any or all the medals in any year on the ground of deficiency of merit in the exhibits.

The Flower Show opens on Saturday the 6th August 1910 at 3-30 P.M.

The Floral Parade takes place at 5-30 P.M.

Vegetables will, if possible, be exhibited till Sunday the 7th, 9-30 A.M., after which they may be sold.

MYSORE AGRICULTURAL DEPARTMENT.

CIRCULAR No. 1.

Koleroga of Supari.

Government have gone to considerable expense in the investigation of the serious disease known as Koleroga of Supari. The disease has been found to be due to a fungus which lives in and on the nuts and which is able to spread very rapidly from one nut and from one bunch to another, under favorable conditions. A method of combating this disease has been tried extensively during the past year and in every case has shown itself to give better results than the ordinary method of tying kottes. The actual figures that show this are being published in a Kanarese bulletin which is now being printed. The cost of the materials required for treating one acre will vary from Rs. 3 and Rs. 5 depending upon the number of trees and the size of the bunches.

The Agricultural Department has purchased a number of sprayers to apply this material to the bunches and has placed four in each taluk head-quarters. In addition, special men have been appointed to superintend the spraying and see that it is properly done. It is earnestly hoped that garden owners will give this method a thorough trial. The expense is so light as to be much less than that of the tying of kottes where kottes have to be bought. About 20 garden owners in various parts of the malnad have already expressed a desire to have a part of their gardens treated. It is hoped therefore that others wishing to try the method will apply at once to the following: for Sagar and Nagar Taluks, to Mr. N. K. Venkata Rao, Assistant Mycologist, stationed at Sagar. For Tirthahalli and Koppa Taluks, to Mr. E. S. Ramaswami Iyer, Agricultural Inspector, stationed at Tirthahalli. As this Department is going to considerable expense in the matter and is furnishing sprayers and men for the work, it is thought only just that garden owners should bear the small expense of the materials used which are being supplied at wholesale cost price. As stated, the total cost will be about Rs. 3 and will never exceed Rs. 5. In any case garden owners will be charged only for the actual amount used. I trust that many garden owners may be willing to have about half to one acre of their gardens sprayed under these conditions. They will then be able to judge for themselves as to the usefulness of the treatment. As spraying to be effectual should be done before the rains set in, it is necessary for garden owners to apply *at once* if they wish any spraying done.

In spite of the ever-increasing commercial and industrial importance of the United Provinces of Agra and Oudh, nearly half a century has elapsed since a Provincial Exhibition took place at Allahabad in 1864. During this last half century there has been an immense advance in industrial activity and an increasing interest is being shown in industrial matters including agriculture, which, as has been well said, is now and must always be the greatest industry of this country. It was generally felt that the time had come to bring once more prominently before the public the industrial capabilities and needs of these Provinces, and this feeling culminated in the holding of a public meeting at Allahabad on July 31st, 1909. At this meeting the chair was taken by His Honour the Lieutenant-Governor Sir John Hewett, K.C.S.I., C.I.E., who as first member for Commerce and Industry on the Viceroy's Council did so much for the advance of trade in India. The meeting was attended by leaders of all branches of the community including feudatory chiefs and the landed aristocracy, and the greatest enthusiasm was displayed. It was decided to open the Exhibition in December 1910, Allahabad was chosen as the site, and the general management of the Exhibition was vested in a council and an Executive Committee.

The Exhibition will open on the 1st December 1910 and will last for three months closing on the 28th February 1911. The learned Hindu pandits have announced that the date of the opening ceremony is specially propitious for commerce and industry, and, a happy omen, December 1st is also the birthday of Her Majesty the Queen-Empress. During this period of the year the climate is almost perfect; rain seldom falls, the days are bright and pleasantly warm, and the nights comfortably cool. Cold weather visitors from other lands will find a journey to Allahabad both pleasant and profitable. Other cities in the United Provinces can with justice lay special claim to public interest: Lucknow, the capital of Oudh, with all its historic associations: Agra, with the world-renowned Taj and other relics of the great Mogul rulers: Cawnpore, the industrial centre of the Provinces. But for the purposes of an Exhibition the position of Allahabad is unrivalled. The capital of the Province of Agra, the seat of the High Court of Judicature, and a commercial centre of increasing importance, it is served by railways, which place it in direct and swift communication with Bombay, Calcutta, and all the important towns of Northern India, and a glance at the map will show its central position. But there is another reason equally important. In the eyes of the Hindu community, Allahabad, the ancient Prayag, is the most sacred spot on earth owing to its situation at the confluence of the Ganges, Jumna, and the mysterious hidden Saraswati, and is visited annually by hundreds of thousands of pilgrims. The period of the Exhibition has been fixed

so as to include the great bathing festival or Magh Melá, which will bring crowds of people from all parts of India. At the festival this year many questions were asked by pilgrims in connection with the Exhibition buildings in course of erection and with the Exhibition leaflets in Hindi distributed by the Pragwals, the local priests who alone can guide the visitor through his ablutions at the sacred waters. It is certain that after the great Exhibition exhibits attracting favourable notice will be discussed in thousands of towns and villages throughout the length and breadth of the land.

The actual site selected for the Exhibition will appeal to all lovers of the picturesque. Situated on an open plain by the banks of the Jumna between the Fort and the City the Exhibition encloses within its boundaries about 100 acres, while the land to the north of the enclosure will be laid out with camps for visitors and exhibitors, both European and Indian. The situation on the high bank commands a beautiful view of the river and affords unique opportunities for watching displays on the water such as regattas and fireworks.

The scale of the Exhibition is to be commensurate with the importance of the United Provinces of Agra and Oudh, which nearly equal in size and considerably exceed in population the whole of the United Kingdom. An Executive Committee controls the working management of the Exhibition: among its members are well-known leaders of the European, Hindu, and Muhammadan communities, representatives of the Upper India Chamber of Commerce, Government officials, and other gentlemen intimately associated with the industrial progress of the Provinces. Though essentially non-official in character, the Exhibition has the hearty co-operation of the Local Government, who have generously undertaken the management and contributed the funds for the maintenance of the Agricultural, Forestry, and Educational Courts.

The main object of the Exhibition is to encourage the arts and industries of the United Provinces by displaying their products and methods of production and by introducing from other countries such commodities and appliances as are required to supplement indigenous productions. All articles of indigenous art or manufacture, therefore, will be welcomed as exhibits as well as machinery and manufacturing processes of foreign origin. The recently completed industrial survey by Mr. A. C. Chatterjee, I.C.S., shows that the United Provinces are at present passing through a phase of unusual industrial activity which is focussed in the rapid expansion of Lucknow, Agra and Cawnpore. Ancient handicrafts are showing signs of new life and industries are springing up in the smaller towns demanding modern machinery and appliances. Within the last few years the rates of labour, prices of commodities, and standard of living have risen in a marked degree, accompanied by an active demand for conveniences and comforts previously unheard of. There is a widespread need for all kinds of appliances and aids to production—both industrial and agricultural—and the Exhibition will afford an unequalled opportunity for the display of running machinery. Working processes will be a special feature.

The designs of the most important Exhibition buildings have been taken from plans kindly furnished by Sir Swinton Jacob, K.C.I.E., whose work is so well known in India: the buildings are in the true Indian style of architecture combining the best features of Hindu and Muhammadan art. The visitor will enter the Exhibition through an imposing gateway leading into an open quadrangle surrounded on three sides by arcades occupied by Indian artisans working at their crafts and by other exhibitors. Proceeding down the main avenue on either side will be seen a series of handsome oriental palaces containing the exhibits in the Fine and Applied Arts, Wood, Stone, and Metal, and General Industries Courts, together with choice specimens of Japanese art and work from the states of the Indian Feudatory Chiefs, and ending with the Educational and Ladies' Court. The centre of the avenue is occupied by a large quadrangle where a massed military band will play daily: two fairy fountains in many colours lighted by electricity will add to the beauty of the scene. At the end of the avenue stands the Welcome Club, a handsome building with a broad terrace overlooking the river Jumna. To the east near the Fort are placed the Amusements Courts with the Polo ground and stadium for Tournaments and Aviation, and, near this, space is reserved for an Indian Industrial Village. Several Christian Missions are combining to exhibit here specimens of the work of their Indian converts. The Engineering and Textile Courts extend along the railway line to the west, where heavy machinery and goods can be run straight into the buildings. Crossing the line by a foot-bridge the visitor will enter extensive grounds containing the Agricultural, Irrigation, and Forestry Courts. To the south of the Agricultural Court on the historic landing-stage near the bank of the Jumna will be found the annexe to the Welcome Club, to which ladies are admitted: close at hand is a pretty kiosk to serve as a bandstand, a landing-stage for boats, and beyond this a water chute.

Returning to the courts, the visitor will notice the large area occupied by the Agricultural Section, and will realise the pre-eminent position held by agriculture in the United Provinces. The central idea in the organisation of this court is the intimate association of processes and products. This principle has been followed wherever considerations of space and practical working would admit.

A reference to the site plan at the beginning of this prospectus will show that on entering the court from the engineering section by the foot-bridge the visitor will find himself on the circular road round the lake, where all waterlifts and irrigation pumps will be seen at work. These exhibits will include implements of Indian and European manufacture for

hand, bullock, and engine power all in operation. To show agriculturists in the simplest possible way the capabilities of such waterlifts a small set of measured fields have been laid out close to the lake on which the actual area of land irrigated by each in a given time can be demonstrated. In the centre of the lake the Irrigation Department building with a number of interesting exhibits has found an appropriate place. Across the lake will be situated the working dairy, where everything can be seen, from the cows to the butter, including the most modern dairy machinery and utensils and some of the best breeds of Indian milch cattle. The dairy farm is to include several types of dairies suited to different conditions; a steam dairy for commercial work, a camp dairy for household work, a modern village dairy, and an Indian dairy using native implements.

To the north of the lake will be placed working sugar factories of various types, making sugar from cane grown in Allahabad and the adjoining districts, the juice for the factories being supplied by a variety of cane-crushing mills, from the country kolhu to modern cane-mills driven by small engines: in the distance are the demonstration fields, etc., which will be referred to later.

From the lake stretching away to the Jumna three main roads present themselves. Taking the left-hand road the visitor passes along the section devoted to agricultural machinery. On the left close to the Railway Station are found the buildings erected for their exhibits by a number of firms from all parts of India and representing makers from all over the world. Here will not only be seen agricultural machinery in the more restricted sense of the word, but all kinds of machinery for dealing with agricultural products, some driven by hand, others by bullock-power, and others again by oil or steam engines. On the right hand will be seen the large buildings erected to accommodate smaller exhibits, and exhibits of products and working processes; further on is the pot-culture house, containing specimens of growing plants, the fruit-packing house, and fruit-store room, while at the end of the road will be found several sets of fibre-decorticating machinery at work.

Returning along the centre road the visitor approaches the seed-store and fodder and cattle food section on the right, with a small demonstration field on the left. Further on is the silk pavilion where eri-silk and mulberry-silk rearing, spinning, and reeling will be shown in actual progress. Next comes the second large building which deals chiefly with crop exhibits and minor manufacturing processes. Passing through the demonstration ground the visitor comes upon the poultry farm where high class poultry, ducks, and turkeys will be seen living under suitable conditions; this exhibit also includes incubators and artificial foster-mothers for the newly-hatched chicks. Further on are the cattle sheds, where the cattle used in working various processes are housed inexpensively under sanitary conditions.

Adjoining this is the exhibit of the Civil Veterinary Department, which deals with questions of cattle-breeding and the prevention and cure of diseases, in the form of a small model dispensary suitable for district work. Further on and running up to the boundary of the Forestry Court is the large demonstration ground—about 10 acres in area—where all kinds of tillage implements, ploughs, harrows, reaping, harvesting, and threshing machines will be shown at work.

An important feature of the Agricultural Court will be the enquiry office centrally situated near the two large buildings where visitors can not only be directed from place to place but where an experienced official will always be in attendance to give information, put enquirers in touch with the demonstrating staff, and make appointments for landowners and cultivators who wish to consult officers of the department about agricultural matters.

The main object of the Agricultural Court as indeed of the whole Exhibition is to assist the producer and to bring him in touch with the consumer. Ordinary trade channels sometimes fail in India owing to the peculiar economic conditions of the country, and it is hoped that the Agricultural Court will not only bring home to the agriculturist possible improvements on his own methods and put him in touch with manufacturers and dealers in machinery and implements, but that it will also help to bring the capacities of the producer more definitely to the notice of the merchant who ultimately handles his produce.

It will be seen from the foregoing that still exhibits are reduced to a minimum and that everything will as far as possible be shown in actual use. In addition special arrangements are being made for a demonstrating staff who will be in charge of various sub-sections and who will be able to discuss with visitors the advantages of different exhibits

The Forestry Court adjoins the Agricultural and will be divided into seven principal sections.

Section I will be devoted to woods and wood industries. Specimens of some two hundred kinds of timber from the forests of the United Provinces will be exhibited together with botanical specimens and photographs of the more important species. Side by side with these specimens will be exhibited finished articles manufactured by good makers to illustrate the uses for which each species is suitable. Manufacturers who are desirous of exhibiting in this section should apply to the Director of the Court.

Section II will deal with other forest products and industries concerned therewith. Exhibits will be arranged similar to those in Section I, and will include a display of forest products available for food in time of famine.

In connection with both Sections I and II it is proposed to have working exhibits illustrating the various industries connected with forest products, and space will be devoted to the display of woods treated by various antiseptic processes to increase their durability.

Section III will illustrate the felling, conversion, and extraction of forest products The various kinds of tools used and models to illustrate the methods of extraction will be exhibited, and special attention will be paid to up-to-date methods of transport, a small length of tramway and wire-rope way being employed during the Exhibition to carry wood to the machines in Section VII.

Section IV will comprise sylviculture and protection. Sylviculture will be principally illustrated by a collection of photographs, while under protection examples of damage caused by various agencies will be exhibited to show the difficulties with which the Forest Department have to contend.

Section V, forest literature, will include a selection of maps, working-plans, and other forest publications.

Section VI will be devoted to sport, and it is intended to have a grand display of shikar trophies, principally obtained in the United Provinces. Various kinds of traps will be displayed and an assortment of arms past and present together with exhibits of modern guns and rifles as well as of fishing rods and accessories by well-known makers. Loans of good trophies would be welcomed and the Director will be very grateful if those who are willing to assist will kindly inform him what trophies they are able to lend. Medals will be awarded for the best trophies obtained in the United Provinces, and for the best collections of United Provinces trophies.

Section VII will consist of machinery. Selected machines dealing with the principal forest industries will be shown at work during the Exhibition. These will include machines for making matches, packing cases, wood-pulp, casks, wood-spirit, etc. In addition it is hoped that a working powellising plant for the protection of timber against the attacks of insects will be displayed.

The Textile Court in its organisation has been very largely in the charge of the Upper India Chamber of Commerce at Cawnpore, and will be devoted to exhibits of textile products and processes as apart from other industrial exhibits which are located in the General Industries Court. The leading firms in the United Provinces have already promised a representative range of specimens of woollen, silk, and cotton fabrics; the mills of Western India will also be represented. A special feature will be a practical demonstration of some of the processes connected with the manufacture of textile products, and a fine building nearly 180 feet in length and over 80 feet in width will contain the running machinery. A display of tents and carpets will add to the attractions of the court.

The future of the handloom industry in India has been the subject of much pessimistic comment and various suggestions have been put forward to save it from extinction. It is to be hoped that the display of handlooms and their products in this court will go far to show the hand-weaver improved appliances and methods and to bring him in closer touch with his customers. The importance of this can be realised when it is remembered that the number of hand-weavers and their dependants in these Provinces is approximately a million.

In the Engineering Court will be shown exhibits of running machinery to an extent never before attempted at any Exhibition in India. A demand is springing at the present time for electric installations in the large cities of these Provinces and here is the opportunity for firms to meet this demand by a display of machinery and fittings. Plague, fever, and insanitary conditions are most deadly enemies to the health of the people, and a special feature of this court will be the building devoted to Hygiene, Municipal and Sanitary appliances.

There will also be a very fine display of motor cars and accessories, motor boats and bicycles, carriages and conveyances of all kinds.

The progress in provincial engineering education in all its branches is demonstrated in the handsome pavilion set apart for the Roorkee Engineering College in which may be seen models and technical appliances of all kinds appertaining to railways, irrigation, civil and mechanical engineering, industrial, and electro-technical education, printing and photo-mechanical work.

The exhibits in the Fine and Applied Arts Court are classified under various heads. Sculpture of the several periods existing in India from the earliest times such as the Graeco-Indian, Buddhist, Jain, and later Hindu periods will be illustrated by specimens and photographs and there will be a fine collection of paintings including those of the modern Indian School. The Photographic Salon will afford visitors an opportunity of realising the great progress made in India during recent years in the various branches of pictorial and technical photography. While numerous prizes are offered for competition in the amateur and professional classes dealing with exclusively oriental subjects, photographers in all parts of the world are invited to exhibit specimens of their work. Manufacturers of photographic apparatus, plates, papers, accessories, etc., and inventors of new and improved processes will find the Salon an invaluable agency for advertisement. Exhibits of gold and silver work, carved and inlaid stone work, and horn and ivory carved and inlaid work will be received from all parts of India; for these as for the other sections of the Fine Arts Court all persons

possessing objects of historical and artistic value are earnestly invited to communicate with the Secretary with a view to their loan to the Exhibition Committee. Every care will be taken of the loan exhibits which will be insured against damage where this course is considered necessary.

The general scope of the Wood, Stone, and Metal and General Industries Courts is set forth in the schedule showing the classification of exhibits which in the General Industries Court are varied and extensive.

The exhibits from the Feudatory States on the borders of these Provinces, in Rajputana, and in other parts of India will illustrate the handicrafts and manufactures of each, and in the Japanese Fine Art Court will be shown the best specimens of Japanese Art.

In the Educational Court will be found a comprehensive display of exhibits illustrating the progress of educational teaching in these provinces. School furniture and apparatus are being collected from various schools and from firms both in India and England. A section is devoted to Female Education and Kindergarten work, and an attempt will be made to compare the Vernacular Education in this and other provinces. The standards and methods of teaching in the Anglo-Vernacular schools in the various provinces of India will be fully dealt with together with the methods of instruction in vogue in Europe in the subjects taught at these schools. Other sections will comprise Rural Education, Libraries, Schools of Art, Commercial Education, and Indigenous Methods of Instruction in Oriental Subjects, and there will be a demonstration of physical training. Technical Schools and Reformatories will also be represented.

The Ladies' Court is in charge of a strong sub-committee of European and Indian ladies. Lace and embroidered work, fancy needle-work, dressed dolls, basket and bead-work, pictures etc., in short all kinds of articles made by the women of India will be displayed, and special efforts are being made to secure representative exhibits from Convent, Mission, and European Schools. The greatest care will be taken of valuable loan exhibits. Inside the building will be a Ladies' Purdah Club, for the use of which no charge will be made, and any lady wishing to become a member should send her name to the President, Ladies' Court Sub-Committee, Lucknow. From the roof purdah-nashin ladies will be able to hear the band and watch the amusements in the adjoining Amusements Court without being seen themselves With Her Excellency Lady Minto and Lady Hewett among the Patronesses of the Club the Ladies' Court should prove one of the most successful at the Exhibition.

While the main object of the Exhibition is to encourage the arts and industries of the United Provinces no effort will be spared to cater for the amusements of the visitors. A magnificent ground has been provided in the Exhibition enclosure on which two Polo Tournaments will be held. The big Tournament will be open to any team which is a registered member of the Indian Polo Association and will be run on much the same lines as the International Tournament held at the Delhi Darbar in 1903. A large silver cup together with a miniature cup for each player will be presented to the winning team. The first Aviation Meeting ever held in the East will be a great attraction to visitors, and the promise of an airship and an aeroplane from England has already been obtained. During the three months December to February the United Provinces are practically free from wind and rain, and with cloudless skies and favouring air currents records should be lowered over the Exhibition course. To all who know India the possibilities affecting the future of aviation in this country must appear unlimited and aviators will find a visit well repaid. A grand military display and assault at arms as well as an oriental pageant will be held on the Tournament arena: the latter will include representations of leading incidents in Indian history in which it is hoped that several Native States will participate. The ancient armour, the old world costumes, and the varied and rich trappings on the horses and elephants will contribute to produce a scene which will live long in the memories of the spectators. Not the least popular of amusements especially for Indian visitors will be the wrestling arena where the leading champions in India will be matched against one another. It is also proposed to take advantage of the proximity of the river and organise regattas and Venetian fetes with illuminations and fireworks. Amongst other amusements and sideshows will be a Water Chute and a Scenic Railway, while a large theatre is in course of construction.

A small subscription will entitle visitors to make use of the Welcome Club and Annexe for ladies: the rules of election will be duly announced. European and Indian gentlemen will find the Club and Annexe a pleasant place for rest and social intercourse.

For the convenience of visitors and exhibitors accommodation will be provided at reasonable rates in hotels or in the residential camps shown on the site plan. No carriages will be allowed within the Exhibition grounds but a well-appointed rikshaw service will be organised, enabling visitors to be wheeled about the grounds at a small fee. Refreshments for all classes will be available Special concessions for passengers to be announced hereafter will be granted by the Railway Companies, and arrangements are being made to convey organised parties of cultivators and artisans in special trains from various districts.

The internal and external lighting of the entire Exhibition will be effected by electricity, which will also be used as the motive power in the Textile, Engineering, and other courts. A complete electrical power-generating station, capable of supplying 540 horse-power and

equipped on the most up to-date lines, is being provided. Nightly after dark the principal buildings and the bandstand will be illuminated by electricity, the two fairy fountains in the central square being a special feature as being more or less a novelty in India. For the external lighting high candle-power flame are lamps are also being arranged for on a liberal scale.

There will be an ample supply of filtered and unfiltered water and a pumping station is being erected by the Exhibition authorities on the banks of the Jumna. This will contain three sets of pumping plants, any one of which would be suitable for the irrigation of large estates in these Provinces. Both the Power House and Pumping Station will be open to inspection by the public.

The East Indian Railway Fort Station will be reserved for the Exhibition and will land goods direct to the Exhibition grounds.

Exhibits will be admitted free of octroi duty and the railway and customs concessions on exhibits are given in the appendices; any steamship concessions on exhibits will be announced later.

A large number of medals will be struck and together with certificates will be given to successful exhibitors in each court, and competitions will be held to demonstrate the working of improved implements of various crafts. Rules are under preparation and the conditions will be shortly announced.

An Intelligence Bureau will be opened in the Exhibition under the charge of a special officer whose function will be to bring purchasers and sellers in touch with each other and to give general information regarding the commercial capabilities and needs of the Provinces.

The attention of exhibitors is called to the General Rules and Regulations and to the appendices in the prospectus where all important information will be found.

Except where otherwise laid down all communications should be addressed to

The Secretary,
United Provinces Exhibition
Allahabad India.

N. B.—Additions and amendments will be made to this Prospectus from time to time.

CLASSIFICATION OF EXHIBITS.

I.—AGRICULTURAL COURT.

1.—*Aids to Production.*

Seeds.—Exhibits of seed and of methods and apparatus for storing seed.

Manures.—Exhibits of manures and of experiments and diagrams or models illustrating their practical value.

Cattle.—Exhibits of different types of working and milch cattle and of other cattle of economic importance.

Waterlifts for Irrigation.—Indian and imported pumps or waterlifts of all kinds for use in Agricultural operations. Special facilities have been arranged for showing these at work.

Tillage Implements.—Ploughs, cultivators, harrows, seed discs. Mowing and reaping, harvesting, threshing and winnowing machinery for hand, animal, or engine power. Arrangements have been made to show these at work at certain intervals during the Exhibition.

Diseases and Insect Pests.—Methods and apparatus for their prevention and control.

2.—*Products and their Utilisation.*

Agricultural products and processes in all stages and machinery for dealing with such products.

Cereals.—Exhibits of plants and grain; of flour starch and other finished or partially finished products; machinery for dealing with cereals and cereal products.

Oil seeds.—Plants, oil seeds, oils, oil cakes, with machinery and processes for the preparation of the finished products.

Sugar.—Sugarcane.
Cane-crushing mills.
Machinery for preparing sugar from sugarcane by various processes.
Preparation of sweatmeats, etc., from sugar.
Sugars and sweatmeats.

Fibres.—Fibre-producing plants.
Fibre-decorticating machinery.
Fibres.
Manufactured articles from Indian fibres.

Tobacco.—Exhibits of raw produce and of manufactured tobacco.
Cigar and cigarette-making.

Spices.—Plants yielding spices.
Indigenous spices.

Fruits.—Fruits in season.
Fruit-packing and storing.

Tea.—Tea and tea machinery.

Dairying.—Milch cattle, dairy machinery and equipment.
Working dairies of different types.

Miscellaneous food products.—Indigenous.

Horse and cattle food.—Fodders and fodder-cutters.
Silos and ensilage.
Oil cakes and oil-cake crushers.
Food stuffs and machinery for their preparation.

Entomology.—Economic insects of the province and their products, *e.g.*, lac, eri-silk.

NOTE.—

Agricultural Machinery.—For the convenience of exhibitors in this section the following classification may be adopted as a guide to the class of exhibits invited :—

Tillage implements.	Oil and oil-cake mills.
Irrigation implements.	Flour mills.
Reaping and mowing machines.	Cotton machinery.
Threshing machinery.	Fibre-decorticators.
Maize-hullers.	Sugar machine.
Winnowers.	Dairy machinery and utensils.
Fodder-handling machinery.	

For details see Pamphlet "Northern India as a Market for Agricultural Machinery."

Agricultural Produce.—For details see Agricultural Prospectus and Circular No. 3 (Agriculture) obtainable on application.

3.—*Irrigation Department Exhibits.*

4.—*Civil Veterinary Department Exhibits.*

II.—FORESTRY COURT.

1. Woods and Wood Industries.
2. Other forest products and industries concerned therewith.
3. Felling, conversion, and extraction of forest produce.
4. Sylviculture and protection.
5. Forest Literature.
6. Shikar trophies, traps, sporting weapons past and present, fishing rods and accessories.
7. Machinery.

III.—TEXTILE COURT.

1. Spinning, weaving, dyeing and calico-printing processes and products.
2. Cotton, Wool, Silk and mixed Fabrics.
3. Hosiery and embroidery.
4. Tents, Carpets, Daris, Namdas and Blankets.
5. Textile machinery.

IV.—ENGINEERING COURT.

1. General machinery and prime-movers.
2. Electric machinery and fittings.
3. Electric novelties.
4. Models of engineering works.
5. Tools and minor engineering appliances.
6. Building materials. Floor and roofing tiles.
7. Various systems of lighting.
8. Hygiene, Municipal and Sanitary appliances.
9. Motor cars, motor vans, motor boats, and their accessories.
10. Carriages and bicycles.
11. Roorkee Engineering College Exhibits.

V.—FINE AND APPLIED ARTS COURT.

1. Sculpture.
2. Painting, drawing and designing.
3. Engraving.
4. Photography (see appendix F).
5. Jewellery. Gold and silver work.
6. Horn and ivory carved and inlaid work.
7. Loan exhibits of historical and artistic value.

VI.—WOOD, STONE, AND METAL COURT.

(*a*) *Metal Work.*

1. Brass, copper and iron hollow ware.
2. Aluminium and German-silver ware.
3. Plated and enamelled ware.
4. Brass and white metal ornaments.
5. Safes, boxes and locks.
6. Cutlery.
7. Gold and silver wire work.
8. Watches, clocks, and spectacles.

(*b*) *Wood and Stone Work.*

9. Furniture and decoration.
10. Turnery and lacquer work.
11. Bamboo and basket work.
12. Carved and inlaid wood and stone work.

VII.—GENERAL INDUSTRIES COURT.

1. Leather and Tanning.
2. Brushes.
3. Paper and Papier-mache.
4. Printing and writing machines.
5. Chemicals.
6. Soaps, oils, and perfumes.
7. Mineral oils and their products.
8. Distempers, paints and varnishes.
9. Food stuffs.
10. Tobacco, cigars and cigarettes.
11. Pottery, glass and ceramics.
12. Musical instruments.
13. Sporting requisites.

VIII.—NATIVE STATES COURT.

IX.—JAPANESE FINE ART COURT.

X.—EDUCATIONAL COURT.

1. Vernacular Education.
2. (*a*) Anglo-Vernacular Education.
   History and Geography.
   English.
   Science.
   Drawing.
   Mathematics.
   Writing.
   Manual Instruction.
   Moral Instruction
   Classical Languages and Vernaculars.
   (*b*) British and Foreign exhibits illustrating methods of instruction in subjects included under 2, (*a*).
3. Kindergarten and Female Education.
4. Commercial Education.
5. Rural Schools and Agricultural Colleges.
6. Technical, Arts and Crafts, Reformatories.
7. School of Art.

8. School Furniture and Apparatus.
9. Defectives.
10. Oriental Learning.
11. University and Colleges.
12. Medicine.
13. European Schools
14. Physical Training.
15. Moral Instruction.

XI.—LADIES' COURT.

1. Lace and embroidered work.
2. Needlework.
3. Dressed dolls, toys, etc.
4. Basket and bead work.
5. Artificial flowers.
6. Pictures.
7. Exhibits from Convent, Mission, and European Schools.

N. B—This classification of exhibits is liable to modification any alteration will be shown in the final Prospectus.

GENERAL RULES AND REGULATIONS.

1. The Exhibition will be opened at Allahabad on December 1st, 1910. It is proposed to keep it open for a period of three months from 11 A.M. till 11 P.M. daily, but the Executive Committee, hereafter called the Committee, reserve to themselves the right to alter this period or these hours. Due notice will be given of the date of the closing of the Exhibition.

2. The Committee, whilst intending to adhere as closely as possible to the published plans and general rules and regulations, reserve the power to make modifications, alterations or additions without giving notice thereof.

3. The combined form of application for space and of statement of exhibits will be found in appendix A.

The space charges fixed by the Committee will be found in appendix B.

Rupees 5, the amount of the registration fee, must accompany each application form. This fee will be returned if the applicant is not registered as an exhibitor.

4. All articles of indigenous art or manufacture will be welcomed as exhibits as well as machinery and manufacturing processes of foreign origin. Other articles of foreign manufacture will only be accepted if, in the opinion of the Committee, they are likely to promote or develop Indian Art and Industries.

5. The Committee reserve to themselves the right to refuse any application for space or any exhibit without assigning any reason.

6. The division into courts and the classification of exhibits as shown in the Prospectus will be adhered to as far as possible.

7. On receipt of the application in Form A the applicant will be informed whether he has been registered as an exhibitor and, if so, the space allotted to him and the space charges to be paid by him. Half the space charges must be paid within six weeks of the receipt of this information: the remaining half must be paid by 1st September 1910.

8. Exhibitors who fail to send the full space charges so as to reach the Exhibition Office by 1st September 1910 shall forfeit all right to exhibit save with the express sanction of the Committee on an adequate explanation being furnished.

9. No refund will be given to an exhibitor who occupies less space than that allotted and paid for, and the unoccupied space may be disposed of by the Committee.

10. Each registered exhibitor will be informed of the number allotted to him.

11. Exhibits will be received from the 1st October to the 15th November 1910, but the Committee may sanction earlier delivery in the case of machinery or other exhibits requiring special staging. Exhibits may be sent by "Railway Parcel" or "Goods" to the Secretary at the Exhibition Goods Station, East Indian Railway, Allahabad, or may be delivered through the post or personally between the hours of 10 A.M. and 4 P.M. at the Exhibition Office. Under no circumstances will exhibits be received after the 15th November 1910.

12. All packages containing exhibits must be addressed to the Secretary, and must bear on the outside the name and the number (*vide* Rule 10) of the exhibitor, and the court for which intended. They must contain inside a list in triplicate showing the number of exhibits with necessary details to be entered in a form which will be supplied to all registered exhibitors. A formal receipt will be given to the exhibitor or his agent for articles found in good order.

13. A special circular will be issued as to the period within which perishable articles will be received.

14. Exhibitors may deliver their articles personally or send them through their agents.

15. Every facility will be afforded to exhibitors or their agents in the transport, display, sale, and care of the exhibits, but every exhibit shall be shown at the sole risk and responsibility of the exhibitor. The Committee will not be responsible for the safety of any property or for loss or damage occurring from any cause whatsoever, either in transit or at the Exhibition (whether by fire, the elements, theft or otherwise) to any exhibit or other property belonging to any exhibitor or any person. The Committee will insure against fire all buildings erected by them and will also provide fire engines and other appliances for protection against fire throughout the grounds, but exhibitors are advised to insure against fire structures erected by themselves as well as all exhibits sent to the Exhibition. Fire Insurance Offices will be represented at the Exhibition and all information will be obtainable on application to the Secretary. The Committee will take all reasonable precautions to guard the buildings and grounds within the Exhibition enclosure and to secure the safety of the exhibits: but exhibitors are advised to make special arrangements with the police and to insure their exhibits against theft where they consider this course necessary.

16. If any damage or injury shall be caused or occasioned before the opening, during the continuance, or after the close of the Exhibition by the exhibitor or any person employed by him or by any apparatus or by the erecting, installation, use or removal thereof, or by any object connected with the exhibit, or belonging to or under the control of the exhibitor, to any visitor or exhibitor, or to any officer, servant, or employe at the Exhibition, or to any person whomsoever, or to any object or thing, the exhibitor shall indemnify the Committee from and against all damage or injury and all claims, demands, actions, suits, costs, and expenses in respect thereof.

17. No exhibitor will be allowed to use unprotected lights, or fire in any manner, without special permission in writing from the Committee, which permission may be withdrawn at any time. Except in places specially reserved for the purpose, no smoking will be permitted in any of the Exhibition buildings. All fulminating, obnoxious, dangerous, and explosive substances are absolutely forbidden. The Committee reserve to themselves the right of examining or testing anything brought upon or to the premises.

18. Exhibitors shall bear all expenses incidental to the transport and the delivery of their exhibits as well as their removal after the Exhibition is closed. Goods or parcels sent "Unpaid" will be refused. If the exhibitors require for the display of their exhibits any special arrangements or construction, stands, tables, shelves, etc., or have to mount their machinery and apparatus, they must erect these at their own cost and in accordance with plans approved by the Committee.

19. Every exhibit must bear a label showing the court, the name and description of the article, its price if for sale, the place of its production or manufacture, and the name of the manufacturer and the exhibitor. Labels will be forwarded to registered exhibitors.

20. Every facility will be given to exhibitors for the sale of their goods, but no exhibits may under any circumstances be removed until the close of the Exhibition: an exhibit when sold will be labelled "Sold."

Exhibitors are advised to have a small stock of similar articles at hand for ready sale.

21. The following sale commission shall be paid to the Committee by exhibitors on all articles sold at the Exhibition, the charges being on a graduated scale: on all articles of the value of Rs. 1,000 and under one anna in the rupee: above Rs. 1,000 and up to and including Rs. 5,000 five per cent. of the value: above Rs. 5,000 and up to and including Rs. 20,000 three per cent. of the value: above Rs. 20,000 two per cent. of the value, the charge being made on the price of each article sold.

EXAMPLES:

Value of articles.			*Commission.*		
Rs.	a.	p.	Rs.	a.	p.
50	0	0	3	2	0
1,050	0	0	65	0	0
5,050	0	0	264	0	0
20,050	0	0	713	8	0

No sale commission shall be charged on the sale of running machinery exhibited in any court or on any refreshments sold.

22. Exhibitors shall themselves take their exhibits to and arrange them in the space allotted to them and every facility will be given to them by the Exhibition Committee. Exhibitors who are unable to attend personally or send agents in charge of the exhibits, may make special arrangements with the Committee for the display of their goods on payment in advance of all estimated expenses, which may be ascertained on application.

23. The power and light charges fixed by the Committee will be found in appendix C. In addition to electric power a small supply of steam power may be available.

24. Exhibitors, their agents, or servants are not allowed to interfere in any way with the electric, gas, or water fittings and installations, unless such fittings and installations are exhibited by them with the permission of the Committee.

25. Exhibitors and such assistants, servants, or other attendants as they may require for service at their stalls shall enter the Exhibition grounds through such entrance or entrances as the Committee may direct: they must wear badges or discs which will be issued to them before the opening of the Exhibition. All such assistants, servants, or other attendants must obey the orders of the Committee and of the supervising staff appointed by them.

26. The Committee will publish before the Exhibition opens a catalogue of all exhibits with the names and addresses of the exhibitors and their agents if any.

27. Gold, silver, and bronze medals will be awarded to exhibitors together with certificates of merit according to the verdict of jurors appointed by the Committee. The verdict of such jurors shall be final.

The silver and bronze medals awarded will be given free of cost by the Committee. In the case of gold medals awarded (other than those provided by private donation), if the actual medal is desired, the cost must be defrayed by the successful exhibitor.

The names of the successful exhibitors will be published together with a description of the exhibits and of the medals awarded.

28. No exhibits shall be copied, photographed, drawn, or reproduced in any manner without the special permission of the exhibitor and the Committee.

29. The Welcome Club, for admission to which both Europeans and Indians are eligible, shall be under the management of a sub-committee consisting of European, Hindu, and Muhammadan gentlemen: rules relating to election will be duly published.

30. No exhibitor shall assign, transfer, sublet, or part with the possession of any site or building or portion thereof allotted to him or dispose of any part or interest therein or place thereon any other than his own duly approved exhibits. Any breach of this rule renders the exhibitor liable to have his exhibits removed summarily from the Exhibition, and he shall not be entitled to any compensation nor to the return of any monies from the Committee.

31. The Committee reserve to themselves the right to remove from the Exhibition at any time any exhibit which they may deem unsuitable, dangerous, or in any way objectionable without assigning any reason, and the Committee shall be deemed to be exonerated from any claim whatsoever in reference to such exhibit by the exhibitor or any person claiming through him.

32. All exhibits shall be unpacked immediately after arrival and the empty cases and litter removed by the exhibitor or his agent to the store godowns erected by the Committee.

33. Exhibitors shall not do or suffer to be done any act which may in the judgment of the Committee be or grow to be a nuisance or annoyance, or cause damage or disturbance to the Committee, the public visiting the Exhibition, or the occupiers of any adjoining sites or stalls. The Committee shall not be responsible to any exhibitor for the acts or conduct of any other exhibitor nor for the consequences of any breach of the rules and regulations by any exhibitor.

34. All constructions, fittings, decorations, designs, notice-boards, and advertisements shall be subject in all respects to the approval of the Committee, who may cause to be removed or altered anything they deem objectionable. Exhibitors must not display advertisements or notices other than those referring to their own exhibits, and no advertisement shall be displayed by exhibitors outside the space allotted to them without the special permission of the Committee.

35. All buildings erected by exhibitors and all sites, stalls, etc., occupied by them shall be properly cleaned and open for the public before the hour of opening each day, and shall remain so during all hours that the Exhibition shall be open to the public, and, if this is not done to the satisfaction of the Committee, the Committee shall do whatever they may deem necessary at the sole risk and expense of the exhibitor.

36. Exhibitors shall not, without the written permission of the Committee, take down or alter any part or parts of the buildings erected by themselves or by the Committee, or remove any part thereof.

37. No articles of refreshment, food, drink, or tobacco shall be sold in or on any site, building, or part thereof of the Exhibition without the written permission of the Committee.

38. Exhibitors shall cause all articles left by visitors or others and found by exhibitors or their employés in any part of the Exhibition to be immediately deposited in such place as the Committee may designate for the purpose.

39 The Committee or any person or persons that they may appoint shall at all times have free access and right of entry to all and any part of the space, site, or building allotted to exhibitors.

40. The Committee reserve to themselves the right to enclose a portion or portions of the Exhibition buildings or grounds, and to close or make a special charge for admission thereto whilst the Exhibition is open to the public.

41. The Committee reserve to themselves the sole right of compiling, producing, and publishing catalogues, guides, hand-books, programmes, souvenirs, and other publications relating to the Exhibition.

42. Any authorised permission or consent given by the Committee may be cancelled or withdrawn at any time by the Committee without any cause or reason being given for so doing.

43. On the close of the Exhibition exhibitors shall immediately withdraw from the sites, buildings, or portions thereof alloted to them, and shall remove all their exhibits within thirty days. In default the exhibits will be removed and stored at the risk and expense of the owners, and will be handed over to them on payment of all expenses incurred in removal and storage. If the exhibits are not removed within three months after the close of the Exhibition they will be sold by public auction.

44. The Committee reserve the right to remove at any time the exhibits of any person who does not conform to their rules and regulations.

45. All persons registered as exhibitors shall by so doing be held to signify their assent to and acceptance of all rules and regulations issued by the Committee.

Note—Exhibitors in the Agricultural, Forestry, and Educational Courts should note that special rules and circulars will be issued by the officers in charge.

Ragi	14·1	12 to 13	

Rangoon rice, 2nd sort, is sold at 8 seers per rupee.

Agricultural operations.—Fields are being ploughed.

Prospect and probable outturn of harvests—Want of rain is much felt.

Cattle are in good condition. Water and fodder are sufficient.

BANGALORE CITY AND TALUKS.

8. Market well supplied.

9. *Agricultural operations.*—Lands are being manured and ploughed in parts of Nelamangala, Kankanhalli and Anekal Taluks. Vaisakhi paddy is still being harvested in parts of Bangalore, Hoskote, Anekal and Devanhalli Taluks.

Standing crops such as sugar-cane, til, jola and haraka are in good condition, but these require a shower or two of rain immediately.

Crops sown.—Ragi in parts of Kankanhalli, Magadi and Anekal Taluks; punaji paddy, avare and kaki jola in parts of Anekal Taluk, and potatoes in parts of Devanhalli Taluk.

10. Prospects of the season are fair, but rain is very badly wanted for sowing and other agricultural operations. Food stuffs are sufficiently available. Labor is available to the cooly classes.

11. Except for small-pox and measles in parts of Hoskote Taluk and for plague in Channapatna town, public health is generally good.

12. Except for rinderpest in parts of Harohalli hobli, Kankanhalli Taluk, cattle are healthy. Water, pasture and fodder are sufficiently available.

KOLAR.

8. Market well supplied.

9. *Agricultural operations.*—Raiyats are engaged in ploughing and manuring the soil and in some parts lands are made ready for sowing.

Standing crops.—Paddy and sugar-cane under kapile wells are in good condition.

Crops sown.—Ragi in Bowringpet, Sidlaghatta, Chikballapur, Goribidnur and Srinivaspur Taluks; avare in Bowringpet, Sidlaghatta and Goribidnur Taluks; paddy in Bowringpet and Malur Taluks; togari in Sidlaghatta and Goribidnur Taluks; punaji paddy in Srinivaspur Taluk; and groundnuts in Goribidnur Taluk.

Crops harvested.—Paddy in Goribidnur Taluk of the estimated yield of 10 to 12 annas.

10. Prospects of the season are good. Food stuffs are available. Labor is available to the cooly classes.

11. Except for small-pox in Malur town and in some parts of Gudibanda Sub-Taluk, and measles in Malur town, public health is generally good.

12. Cattle are healthy. Water and fodder are sufficient in all the taluks, except in some of the villages of the Chikballapur Taluk and in Chikballapur town, where water is procurable in limited quantities.

TUMKUR.

8. Market well supplied.

9. *Crops sown.*—Paddy in Chiknayakanhalli, Kunigal, Pavagada and Turuvekere; ragi in Chiknayakanhalli, Sira, Gubbi, Tiptur, Pavagada, Kunigal and Turuvekere; jola in Chiknayakanhalli, Gubbi, Pavagada; avare in Chiknayakanhalli, Sira, Gubbi, Tiptur and Pavagada; togari in Chiknayakanhalli, Sira, Tiptur and Pavagada; gingelly in Chiknayakanhalli and Pavagada; haraka in Sira and Gubbi; save in Gubbi; navane in Gubbi and Pavagada; sajje in Pavagada and castor in Chiknayakanhalli, Gubbi, Pavagada and Turuvekere.

Crops harvested.—Paddy in Chiknayakanhalli, Sira, Gubbi, Tiptur, Kunigal, Koratagere and Turuvekere, and sugar-cane in Kunigal.

Condition of crops.—Good in Gubbi, Tiptur, Kunigal, Koratagere and Turuvekere. Fair in Tumkur, Chiknayakanhalli and Sira. Wet crops are fair in Pavagada and other crops have faded.

10. Prospects of the season are hopeful. Rain is wanted in almost all parts of the district for sowing crops. Food stocks are available.

11. Except for small-pox in a few villages of the Gubbi and the Kunigal Taluks, and of the Turuvekere Sub-Taluk, public health is generally good.

12. Water and fodder are available in all the taluks of the district, except Pavagada, where they are fairly available.

MYSORE.

8. Market fairly well supplied.

9. *Agricultural operations.*—Lands are being ploughed in parts of the Seringapatam, Nanjangud, Mandya and Nagamangala Taluks.

Crops sown.—Ragi in parts of the Mysore, Chamrajnagar, Gundlupet, Malvalli and Krishnarajpete Taluks; avare and chillies in parts of the Mysore Taluk; black and green grams in parts of the Heggaddevankote Taluk; samé, haraka and haralu in parts of the Malvalli Taluk; togari and sugar-cane in parts of the Mandya Taluk; and paddy in parts of the Seringapatam Taluk.

State of standing crops is good.

Crops harvested.—Black gram and green gram in parts of the Seringapatam Taluk; sugar-cane in parts of the Mandya Taluk.

Estimated outturn.—Black and green grams in the Seringapatam Taluk, yield 8 annas.

10. Prospects of the season are good. Food stuffs are available

11. Except for plague in parts of the Mysore and Nanjangud Taluks and cholera in parts of the Nanjangud and Krishnarajpete Taluks, public health is generally good.

12. Except for 'Dod Roga' in parts of the Mysore and Hunsur Taluks, cattle are healthy. Water and fodder are available.

HASSAN.

8. Market well supplied.

9. *Agricultural operations.*—Raiyats are reported to be preparing the land in Arsikere and Channarayapatna Taluks for sowing hingar crops.

PROSPECTUS OF THE DASARA EXHIBITION OF 1910.

Introductory.—With the sanction of the Government of His Highness the Maharaja of Mysore, the Committee issue the following Prospectus in connection with the Exhibition of 1910.

2. *Opening of the Exhibition.*—This year the Exhibition will be opened to the judges for judging the exhibits and the Press correspondents from the 5th to the 9th, and to the public from the 10th to the 25th of October 1910, both days inclusive. The cattle (local) and poultry show will begin on Saturday 15th October and close on Tuesday 18th.

3. *Object of the Exhibition.*—The primary aim of the Committee is to impart to the Exhibition an educative character and to bring together articles, machinery and processes, the use of which it is desirable to bring to the notice of the raiyat, artizan and the manufacturer by actual demonstration. But as the exhibition of a single specimen may not afford full information and may not be sufficiently attractive to the visiting public, articles intended for sale will also be admitted.

Sale rooms and sale of exhibits.—Articles on a larger scale sent merely for sale will have to be kept in separate stalls and in charge of the exhibitors or their agents. There is no objection to the sale of actual exhibits; but they will not be allowed to be removed from the Exhibition grounds till the termination of the Show. Articles admitted for purposes of sale alone may be removed after purchase. No article will be allowed to leave the Exhibition grounds without a gate pass. Those who desire special facilities for the sale of articles or demonstration of processes, are requested to place themselves in communication with the Secretary to the Exhibition Committee.

4. *Horticultural show.*—The horticultural show comprising Class II, Group 2, items 1 to 7, mentioned in the first section of the Prospectus, will be held on the 15th of October 1910 and kept open till the close of the following day.

5. *Lectures and demonstrations.*—Lectures will be delivered by competent persons in English and Kanarese on subjects connected with Industry, Agriculture, the value of agricultural implements and machines, their cost, construction and repairs. Arrangements will also be made for holding a competition on the Exhibition grounds in Ploughing, Weaving and Pottery work, Home Industries and processes connected therewith. The exact time and place of lectures and demonstrations will be announced later on by handbills and notices.

6. *Donations.*—The Committee would thankfully accept donations for awarding prizes or medals from individuals or associations desiring to give an impetus to any special branch of agriculture or industry.

7. *Classification of exhibits.*—The classification of exhibits will be according to the prize list subjoined to the Prospectus and entries in several sections should be made in the application forms prescribed.

8. *Open to all India.*—The Committee invite exhibits from all the districts of the State as well as from outside. They also appeal to the various agricultural departments and associations in other parts of India, Burma and Ceylon to help them with exhibits and suggestions.

9. *Judges.*—Leading raiyats and non-official gentlemen will be invited to assist the Committee in judging the exhibits.

10. *Admission fees for visitors.*—An admission fee of annas two per head will be levied each time a person enters the Exhibition buildings. Season tickets will be issued at Re. 1 per head. These are not transferable, but books of eight single tickets may be had also at Re. 1 per book. Return railway season tickets between Bangalore and Mysore at a reduced rate which will admit to the Exhibition for the whole period, will be arranged for.

RULES AND REGULATIONS.

1. *Noxious articles.*—Explosives or any substance noxious or dangerous will not be admitted by the Committee.

2. *Particulars regarding the exhibits.*—Intending exhibitors are requested to send to the Secretary to the Exhibition Committee, particulars of exhibits they intend to forward and the amount of space which their exhibits may take up, in the necessary entry form appended to this Prospectus. Forms may also be obtained from the District, Divisional and Taluk Offices or from the Secretary to the Committee; plain paper of foolscap size, may also be used provided all the headings in the form are properly copied and filled up and separate sheets should be used for each section.

3. *Applications from exhibitors.*—Applications should reach the Secretary not later than 10th September 1910. Each application should contain a post card on which the address and the post town of the exhibitor are legibly written.

4. *Lists from taluks.*—Deputy Commissioners of Districts with the District Committee, Sub-Divisional Officers and Amildars of Taluks, are requested to convene, as early as possible, a meeting of the leading artizans, raiyats and merchants residing within their respective charges, to explain to them fully the object and the scope of the Exhibition, to carefully acquaint them with the rules and regulations, drawing particular attention to such paras as 2, 3, 10, etc., to distribute to them forms of applications, to have them filled up by intending exhibitors and to compile and forward them to the Secretary.

5. *Articles not enumerated.*—The classified list of prizes will show the nature of articles which can compete at the Exhibition. Articles not specially enumerated in the prize list may, however, be admitted by the Committee at their discretion.

6. *No fees to be charged for exhibits.*—No fees will be charged for the admission or registration of exhibits or for the space allowed for them.

7. *Acceptance of exhibits.*—The Committee reserve to themselves absolute discretion as regards the acceptance or rejection of exhibits and the allotment of space covered or uncovered.

8. *Delivery of exhibits.*—Articles intended for the Exhibition may be brought by the exhibitor or his agent or servant and delivered at the Exhibition grounds or sent by post or railway and all taluk and district *exhibits should be sent through the Deputy Commissioners of Districts.*

9. *Payment of freight and transport charges.*—No exhibits in respect of which the necessary freight or transport charges have not been paid by the exhibitor, will be accepted by the Committee.

10. *List of particulars.*—All packages received or delivered and all implements and machinery intended for the Exhibition must bear a label specifying name and number of exhibits and the registered number of the exhibitor and must be addressed to the Secretary. They must contain a list in duplicate showing the name or description of the article, its price, the place of production or manufacture, name of the manufacturer or exhibitor; in the case of exhibits in the agricultural section, essential particulars should be given, such as—

1. The season of sowing.
2. The soil on which they are grown.
3. The quantity of seed per acre.
4. The manure used.
5. Whether any irrigation is required.
6. The time required for the maturing of the crop.
7. The average yield per acre.
8. Any other interesting details regarding cultivation.

11. *Exhibits which have already won prizes.*—Exhibits which have won prizes or medals in the Mysore Exhibitions of 1906, 1907, 1908 and 1909 shall be precluded from competing for prizes, though there is no objection to their being accepted for purposes of show or sale.

12. *Date of delivery of the exhibits.*—Intending exhibitors are requested to send the exhibits so as to reach Mysore on the 1st September 1910, from which date the Committee will arrange to take charge of exhibits, *and no exhibits should arrive later than the 20th of September 1910.*

13. *Belated exhibits.*—Articles that are not delivered at the Exhibition Hall in the time fixed, may be admitted at the discretion of the Committee subsequent to the date in para 12; but shall not be entitled to compete for prizes unless accompanied by an admission fee of five per cent of the value of the articles sent, the minimum charges in all such cases being annas eight and the maximum rupees five. The Committee are competent to remit the fees, provided it is proved that the exhibits were not belated through the fault of the exhibitor.

14. *Perishable articles.*—Vegetables, fruits and other perishable articles may however, be delivered at the Exhibition hall till 7 P.M. on the 14th October 1910.

15. *Admission of exhibits.*—No exhibits will be admitted without a pass signed by the Secretary or members of the Committee on duty at the Exhibition grounds.

16. *Responsibility of the exhibitors.*—Exhibitors will have to pay every expense of transit, delivery, fixing and removing their exhibits and they must either personally or by their agents or servants superintend their reception and removal, in default of which, the Committee reserve to themselves the right of doing whatever may be considered necessary at the expense of the exhibitor.

17. *Committee accept no responsibility.*—No responsibility will be accepted by the Committee as to any damage or loss, howsoever occurring.

18. *Special facilities.*—Exhibitors are requested to mention in their applications whether they wish to illustrate practically any process of manufacture or the working of any implement or machinery and if so, to state briefly the nature of the demonstration and any special facilities they require.

19. *Special arrangements to be made at the exhibitor's expense.*—If the exhibitors require any special arrangements to be made (or have to mount their machinery) they must carry them out at their expense; but the Committee will be glad to give such aid as may be possible in the shape of getting skilled or unskilled manual labour at the exhibitor's expense. The expenses of demonstrating machinery and implements should be borne by the exhibitor except where special arrangements have been made with the Committee.

20. *Valuable exhibits.*—All valuable exhibits must be forwarded under the charge of an attender.

21. *Exhibits unaccompanied by men in charge.*—Exhibitors who are unable to attend personally or send their agents in charge of exhibits, may make special arrangements with the Committee for the exhibition of their goods on payment in advance in full, of the estimated expense.

22. *Weighing of exhibits.*—The Committee entrust the work of receiving the exhibits to responsible officials. But as the goods are landed near the Exhibition grounds by special arrangements, it is not possible to weigh every consignment before taking delivery of it. So the exhibitors are requested to take every precaution in packing their exhibits and to send to the Committee in time, an accurate list of exhibits sent by them. Exhibitors who wish that their consignment should be weighed at the Railway Station before delivery, should intimate their wish to the Secretary in time and remit in advance a special fee of one rupee on each consignment to be thus weighed.

23. *Acknowledgment of exhibits.*—Receipt of exhibits will be acknowledged by return of the duplicate list mentioned in para 10 to the exhibitors, duly signed by the Secretary. No other kind of receipt shall be sent. Any difference between the list and the articles actually received will be noted in the duplicate list.

24. *Free pass to exhibitors.*—In cases in which the owners themselves are in charge of exhibits, the necessary free pass will be given.

25. *Free admission to bona-fide raiyats and artizans.*—Raiyats and artizans unable to pay fees, belonging to the Mysore State or from outside, who produce certificates of identification signed by their respective Taluk Officers in Form B appended to this Prospectus, will be admitted free

26. *Space for articles on sale.*—Accommodation for articles to be sold by owners will be found in the sale rooms erected within the Exhibition grounds, as far as possible, and a nominal rent will be charged for special accommodation, and 3 per cent will be charged on the sales conducted in the sale rooms by the exhibitors themselves or their agents. Sellers may have temporary booths put up at their own cost in the Exhibition grounds by previous arrangements with the Committee.

27. *Exhibits for sale.*—Exhibits labelled 'for sale' will be sold during the time the Exhibition lasts; but no article will be removed till the close of the Exhibition.

28. *Commission on sales.*—A commission of half an anna in the rupee will be levied on all articles sold in the Exhibition stalls and grounds through the salesmen appointed by the Exhibition authorities. In this case the money will be received and remitted to the exhibitor by the Exhibition office.

29. *Removal of exhibits.*—All exhibits must be removed within a fortnight after the close of the Exhibition. Exhibits remaining after that time will be disposed of as the Committee deem fit. Perishable articles will be allowed to be removed at the option of the owners or purchasers within 24 hours after the opening of the Exhibition.

30. *Exhibits on loan.*—Works of art and articles of special merit including those of antiquarian interest will be thankfully received. Gentlemen willing to lend them are requested to place themselves in communication with the Secretary or any of the members of the Committee who will inform them of the acceptance of the offer and will make necessary arrangements in connection with the exhibition of articles.

31. *Exhibits belonging to Departments of Government.*—Articles or cattle exhibited by any Department of Government will not be eligible for money prizes or medals; but may be awarded certificates of merit. Certificates of merit will also be given to such of the exhibits from private gentlemen as have not been provided for in the Prospectus, if they are considered by the judges worthy of the same. (This rule does not preclude Government servants or pupils of Industrial Schools from competing for prizes, if the exhibits are manufactured by themselves.)

32. *Admission of live-stock.*—The time of the year when the owners of cattle are fully engaged in the fields, having been found very unsuitable for a regular cattle show, it has been decided to restrict the show to the fine specimens of local (Mysore City) cattle irrespective of breeds and classes.

33. *Accommodation for cattle.*—Accommodation will be provided free of cost.

34. *Practical test.*—Working cattle may, at the owners' option, be subjected to a practical test as to their powers of draught. They must be the *bonâ-fide* property of the exhibitor.

35. *Care-taker.*—Each animal or lot competing separately must be in charge of a care-taker who will remain in charge of the exhibit and must be ready to lead it out at any time as required by the Committee.

36. *Poultry show.*—A class has been opened in the Prospectus for poultry and prizes will be awarded for different pure strains.

37. *Poultry appliances.*—Prizes will also be awarded for incubators and other poultry appliances.

38. *Distribution of awards.*—Prizes and medals will be distributed at the close of the Exhibition. This year it is proposed to hold a distribution of prizes in the Exhibition grounds on or about the 25th October 1910.

39. *Number of judges.*—The judges in each class or group will not be less than three, but no prizes will be awarded unless, in the opinion of the judges, the exhibits merit the reward. Judges cannot compete for prizes in classes or sections in which they are judges, and the decision of the judges is final.

40. *Photograph of articles exhibited.*—No articles exhibited may be copied, photographed, drawn or reproduced in any manner without the special permission of the exhibitor and the Committee. General photographs of stalls may, however, be taken with the permission of the Committee.

41. *Committee's decision final.*—The Committee have full power to make rules for the conduct of the Exhibition under these regulations, and their decision is final in all cases.

42. *Acceptance of rules.*—All persons who become exhibitors shall be held to signify their assent to and acceptance of the foregoing rules and regulations and also such other rules as the Committee may hereafter issue not inconsistent with these regulations.

43. *Official hand-book.*—An official hand-book of all exhibits with the names and the addresses of the exhibitors and their agent or agents, if any, will be published before the opening of the Exhibition without any further cost to the exhibitors. It is expected that a large number of people will visit the Exhibition and that many of them will probably purchase the official hand-book which will be sold at a nominal price. It will be a capital opportunity for advertisers to advertise through the medium of this hand-book. Advertisements will be received for publication in the official hand-book at the following rates :—

	Rs.
Full page ...	20
Half page ...	12
Quarter page ...	7-8

(Special rates will be charged for advertisements on the pages of the cover and coloured fly leaves and other special positions.)

Applications for these advertisements will be received not later than 20th September 1910 and must be accompanied by a remittance in full payment of the amount due for space applied for.

44. *Communications regarding the Exhibition.*—All communications regarding the Exhibition should be addressed to the Secretary to the Mysore Dasara Industrial and Agricultural Exhibition Committee, Mysore.

G. SUBBUSWAMI IYER,
Secretary.

Dated 27th June 1910.

NOTES ON THE LACE AND EMBROIDERY SECTION OF THE MYSORE DASARA INDUSTRIAL AND AGRICULTURAL EXHIBITION.

Owing partly to the fact that it is extremely difficult to translate into Indian Vernaculars English terms used for Needle-work and Embroidery, and partly because people do not readily understand the difference between an Exhibition and an ordinary shop or stall, exhibitors have not always understood what articles are required and will be rewarded, and have sent in much to former Exhibitions that, even if good in itself, was debarred from getting any prize by the fact that it was not asked for in the Prospectus.

It has therefore been thought well to publish a few explanatory notes.

The room devoted to the lace and embroidery section is necessarily limited and it is not possible in any one year to include all kinds of needle-work.

If too many specimens are received, they cannot be displayed effectively and the crowding of embroideries, etc., only results in confusion, dust, damage to the exhibits, and prevents their being satisfactorily shown.

Therefore instead of crowding the stalls with masses of needle-work, good and bad, old and new, clean and dirty, whether included in the Prospectus, or not, the Sub-Committee with the Exhibition to be confined to such specimens only as—

(1) are asked for in the Prospectus,
(2) are considered by them to be really of excellent workmanship.
(3) are new and fresh.

N. B.—Valuable specimens of old embroidery, lace or needle-work should be placed apart in "A loan exhibition."

Exhibitors would do well to note that the best materials available should be used, and that one perfect specimen of any particular work is much more likely to gain a prize than many indifferent specimens. For instance, one silk tie, perfectly knitted in good silk of a nice colour, would stand a better chance of reward than a score of ties carelessly knitted.

Moth-eaten, faded, torn or dirty work cannot be accepted.

Competitors will please note that this year cushions worked in wool work, crewel work, chenille work or bead work are not included in the Prospectus; and also that the bead work and miscellaneous work mentioned in Group III, 5 and 6, are only to be done at the Exhibition itself, before judges, in the working competition; and that no bead work or miscellaneous work is to be sent for Exhibition.

In judging the needle-work, its suitability for use and sale (including the possibility of its being easily cleaned or washed) will be taken into consideration, as well as beauty of design, material, colouring and workmanship.

Preference will be given to Swadeshi exhibits and particularly to those of the Mysore manufacture.

In "the working competition before judges" careful arrangements will be made to respect the gosha or "purdah nashin" and high caste ladies.

All apparatus and materials for that competition must be provided by the competitors. Work may be fixed but not begun.

G. SUBBUSWAMI IYER,
Secretary.

PROSPECTUS OF THE DASARA EXHIBITION OF 1910.

Introductory.—With the sanction of the Government of His Highness the Maharaja of Mysore, the Committee issue the following Prospectus in connection with the Exhibition of 1910.

2. *Opening of the Exhibition.*—This year the Exhibition will be opened to the judges for judging the exhibits and the Press correspondents from the 5th to the 9th, and to the public from the 10th to the 25th of October 1910, both days inclusive. The cattle (local) and poultry show will begin on Saturday 15th October and close on Tuesday 18th.

3. *Object of the Exhibition.*—The primary aim of the Committee is to impart to the Exhibition an educative character and to bring together articles, machinery and processes, the use of which it is desirable to bring to the notice of the raiyat, artizan and the manufacturer by actual demonstration. But as the exhibition of a single specimen may not afford full information and may not be sufficiently attractive to the visiting public, articles intended for sale will also be admitted.

Sale rooms and sale of exhibits.—Articles on a larger scale sent merely for sale will have to be kept in separate stalls and in charge of the exhibitors or their agents. There is no objection to the sale of actual exhibits; but they will not be allowed to be removed from the Exhibition grounds till the termination of the Show. Articles admitted for purposes of sale alone may be removed after purchase. No article will be allowed to leave the Exhibition grounds without a gate pass. Those who desire special facilities for the sale of articles or demonstration of processes, are requested to place themselves in communication with the Secretary to the Exhibition Committee.

4. *Horticultural show.*—The horticultural show comprising Class II, Group 2, items 1 to 7, mentioned in the first section of the Prospectus, will be held on the 15th of October 1910 and kept open till the close of the following day.

5. *Lectures and demonstrations.*—Lectures will be delivered by competent persons in English and Kanarese on subjects connected with Industry, Agriculture, the value of agricultural implements and machines, their cost, construction and repairs. Arrangements will also be made for holding a competition on the Exhibition grounds in Ploughing, Weaving and Pottery work, Home Industries and processes connected therewith. The exact time and place of lectures and demonstrations will be announced later on by handbills and notices.

6. *Donations.*—The Committee would thankfully accept donations for awarding prizes or medals from individuals or associations desiring to give an impetus to any special branch of agriculture or industry.

7. *Classification of exhibits.*—The classification of exhibits will be according to the prize list subjoined to the Prospectus and entries in several sections should be made in the application forms prescribed.

8. *Open to all India.*—The Committee invite exhibits from all the districts of the State as well as from outside. They also appeal to the various agricultural departments and associations in other parts of India, Burma and Ceylon to help them with exhibits and suggestions.

9. *Judges.*—Leading raiyats and non-official gentlemen will be invited to assist the Committee in judging the exhibits.

10. *Admission fees for visitors.*—An admission fee of annas two per head will be levied each time a person enters the Exhibition buildings. Season tickets will be issued at Re. 1 per head. These are not transferable, but books of eight single tickets may be had also at Re. 1 per book. Return railway season tickets between Bangalore and Mysore at a reduced rate which will admit to the Exhibition for the whole period, will be arranged for.

RULES AND REGULATIONS.

1. *Noxious articles.*—Explosives or any substance noxious or dangerous will not be admitted by the Committee.

2. *Particulars regarding the exhibits.*—Intending exhibitors are requested to send to the Secretary to the Exhibition Committee, particulars of exhibits they intend to forward and the amount of space which their exhibits may take up, in the necessary entry form appended to this Prospectus. Forms may also be obtained from the District, Divisional and Taluk Offices or from the Secretary to the Committee; plain paper of foolscap size, may also be used provided all the headings in the form are properly copied and filled up and separate sheets should be used for each section.

3. *Applications from exhibitors.*—Applications should reach the Secretary not later than 10th September 1910. Each application should contain a post card on which the address and the post town of the exhibitor are legibly written.

4. *Lists from taluks.*—Deputy Commissioners of Districts with the District Committee, Sub-Divisional Officers and Amildars of Taluks, are requested to convene, as early as possible, a meeting of the leading artizans, raiyats and merchants residing within their respective charges, to explain to them fully the object and the scope of the Exhibition, to carefully acquaint them with the rules and regulations, drawing particular attention to such paras as 2, 3, 10, etc., to distribute to them forms of applications, to have them filled up by intending exhibitors and to compile and forward them to the Secretary.

5. *Articles not enumerated.*—The classified list of prizes will show the nature of articles which can compete at the Exhibition. Articles not specially enumerated in the prize list may, however, be admitted by the Committee at their discretion.

6. *No fees to be charged for exhibits.*—No fees will be charged for the admission or registration of exhibits or for the space allowed for them.

7. *Acceptance of exhibits.*—The Committee reserve to themselves absolute discretion as regards the acceptance or rejection of exhibits and the allotment of space covered or uncovered.

8. *Delivery of exhibits.*—Articles intended for the Exhibition may be brought by the exhibitor or his agent or servant and delivered at the Exhibition grounds or sent by post or railway and all taluk and district *exhibits should be sent through the Deputy Commissioners of Districts.*

9. *Payment of freight and transport charges.*—No exhibits in respect of which the necessary freight or transport charges have not been paid by the exhibitor, will be accepted by the Committee.

10. *List of particulars.*—All packages received or delivered and all implements and machinery intended for the Exhibition must bear a label specifying name and number of exhibits and the registered number of the exhibitor and must be addressed to the Secretary. They must contain a list in duplicate showing the name or description of the article, its price, the place of production or manufacture, name of the manufacturer or exhibitor; in the case of exhibits in the agricultural section, essential particulars should be given, such as—

1. The season of sowing.
2. The soil on which they are grown.
3. The quantity of seed per acre.
4. The manure used.
5. Whether any irrigation is required.
6. The time required for the maturing of the crop.
7. The average yield per acre.
8. Any other interesting details regarding cultivation.

11. *Exhibits which have already won prizes.*—Exhibits which have won prizes or medals in the Mysore Exhibitions of 1906, 1907, 1908 and 1909 shall be precluded from competing for prizes, though there is no objection to their being accepted for purposes of show or sale.

12. *Date of delivery of the exhibits.*—Intending exhibitors are requested to send the exhibits so as to reach Mysore on the 1st September 1910, from which date the Committee will arrange to take charge of exhibits, *and no exhibits should arrive later than the 20th of September 1910.*

13. *Belated exhibits.*—Articles that are not delivered at the Exhibition Hall in the time fixed, may be admitted at the discretion of the Committee subsequent to the date in para 12; but shall not be entitled to compete for prizes unless accompanied by an admission fee of five per cent of the value of the articles sent, the minimum charges in all such cases being annas eight and the maximum rupees five. The Committee are competent to remit the fees, provided it is proved that the exhibits were not belated through the fault of the exhibitor.

14. *Perishable articles.*—Vegetables, fruits and other perishable articles may, however, be delivered at the Exhibition hall till 7 P.M. on the 14th October 1910.

15. *Admission of exhibits.*—No exhibits will be admitted without a pass signed by the Secretary or members of the Committee on duty at the Exhibition grounds.

16. *Responsibility of the exhibitors.*—Exhibitors will have to pay every expense of transit, delivery, fixing and removing their exhibits and they must either personally or by their agents or servants superintend their reception and removal, in default of which, the Committee reserve to themselves the right of doing whatever may be considered necessary at the expense of the exhibitor.

17. *Committee accept no responsibility.*—No responsibility will be accepted by the Committee as to any damage or loss, howsoever occurring.

18. *Special facilities.*—Exhibitors are requested to mention in their applications whether they wish to illustrate practically any process of manufacture or the working of any implement or machinery and if so, to state briefly the nature of the demonstration and any special facilities they require.

19. *Special arrangements to be made at the exhibitor's expense.*—If the exhibitors require any special arrangements to be made (or have to mount their machinery) they must carry them out at their expense; but the Committee will be glad to give such aid as may be possible in the shape of getting skilled or unskilled manual labour at the exhibitor's expense. The expenses of demonstrating machinery and implements should be borne by the exhibitor except where special arrangements have been made with the Committee.

20. *Valuable exhibits.*—All valuable exhibits must be forwarded under the charge of an attender.

21. *Exhibits unaccompanied by men in charge.*—Exhibitors who are unable to attend personally or send their agents in charge of exhibits, may make special arrangements with the Committee for the exhibition of their goods on payment in advance in full, of the estimated expense.

22. *Weighing of exhibits.*—The Committee entrust the work of receiving the exhibits to responsible officials. But as the goods are landed near the Exhibition grounds by special arrangements, it is not possible to weigh every consignment before taking delivery of it. So the exhibitors are requested to take every precaution in packing their exhibits and to send to the Committee in time, an accurate list of exhibits sent by them. Exhibitors who wish that their consignment should be weighed at the Railway Station before delivery, should intimate their wish to the Secretary in time and remit in advance a special fee of one rupee on each consignment to be thus weighed.

23. *Acknowledgment of exhibits.*—Receipt of exhibits will be acknowledged by return of the duplicate list mentioned in para 10 to the exhibitors, duly signed by the Secretary. No other kind of receipt shall be sent. Any difference between the list and the articles actually received will be noted in the duplicate list.

24. *Free pass to exhibitors.*—In cases in which the owners themselves are in charge of exhibits, the necessary free pass will be given.

25. *Free admission to bona-fide raiyats and artizans.*—Raiyats and artizans unable to pay fees, belonging to the Mysore State or from outside, who produce certificates of identification signed by their respective Taluk Officers in Form B appended to this Prospectus, will be admitted free

26. *Space for articles on sale.*—Accommodation for articles to be sold by owners will be found in the sale rooms erected within the Exhibition grounds, as far as possible, and a nominal rent will be charged for special accommodation, and 3 per cent will be charged on the sales conducted in the sale rooms by the exhibitors themselves or their agents. Sellers may have temporary booths put up at their own cost in the Exhibition grounds by previous arrangements with the Committee.

27. *Exhibits for sale.*—Exhibits labelled 'for sale' will be sold during the time the Exhibition lasts; but no article will be removed till the close of the Exhibition.

28. *Commission on sales.*—A commission of half an anna in the rupee will be levied on all articles sold in the Exhibition stalls and grounds through the salesmen appointed by the Exhibition authorities. In this case the money will be received and remitted to the exhibitor by the Exhibition office.

29. *Removal of exhibits.*—All exhibits must be removed within a fortnight after the close of the Exhibition. Exhibits remaining after that time will be disposed of as the Committee deem fit. Perishable articles will be allowed to be removed at the option of the owners or purchasers within 24 hours after the opening of the Exhibition.

30. *Exhibits on loan.*—Works of art and articles of special merit including those of antiquarian interest will be thankfully received. Gentlemen willing to lend them are requested to place themselves in communication with the Secretary or any of the members of the Committee who will inform them of the acceptance of the offer and will make necessary arrangements in connection with the exhibition of articles.

31. *Exhibits belonging to Departments of Government.*—Articles or cattle exhibited by any Department of Government will not be eligible for money prizes or medals; but may be awarded certificates of merit. Certificates of merit will also be given to such of the exhibits from private gentlemen as have not been provided for in the Prospectus, if they are considered by the judges worthy of the same. (This rule does not preclude Government servants or pupils of Industrial Schools from competing for prizes, if the exhibits are manufactured by themselves.)

32. *Admission of live-stock.*—The time of the year when the owners of cattle are fully engaged in the fields, having been found very unsuitable for a regular cattle show, it has been decided to restrict the show to the fine specimens of local (Mysore City) cattle irrespective of breeds and classes.

33. *Accommodation for cattle.*—Accommodation will be provided free of cost.

34. *Practical test.*—Working cattle may, at the owners' option, be subjected to a practical test as to their powers of draught. They must be the *bonâ-fide* property of the exhibitor.

35. *Care-taker.*—Each animal or lot competing separately must be in charge of a care-taker who will remain in charge of the exhibit and must be ready to lead it out at any time as required by the Committee.

36. *Poultry show.*—A class has been opened in the Prospectus for poultry and prizes will be awarded for different pure strains.

37. *Poultry appliances.*—Prizes will also be awarded for incubators and other poultry appliances.

38. *Distribution of awards.*—Prizes and medals will be distributed at the close of the Exhibition. This year it is proposed to hold a distribution of prizes in the Exhibition grounds on or about the 25th October 1910.

39. *Number of judges.*—The judges in each class or group will not be less than three, but no prizes will be awarded unless, in the opinion of the judges, the exhibits merit the reward. Judges cannot compete for prizes in classes or sections in which they are judges, and the decision of the judges is final.

40. *Photograph of articles exhibited.*—No articles exhibited may be copied, photographed, drawn or reproduced in any manner without the special permission of the exhibitor and the Committee. General photographs of stalls may, however, be taken with the permission of the Committee.

41. *Committee's decision final.*—The Committee have full power to make rules for the conduct of the Exhibition under these regulations, and their decision is final in all cases.

42. *Acceptance of rules.*—All persons who become exhibitors shall be held to signify their assent to and acceptance of the foregoing rules and regulations and also such other rules as the Committee may hereafter issue not inconsistent with these regulations.

43. *Official hand-book.*—An official hand-book of all exhibits with the names and the addresses of the exhibitors and their agent or agents, if any, will be published before the opening of the Exhibition without any further cost to the exhibitors. It is expected that a large number of people will visit the Exhibition and that many of them will probably purchase the official hand-book which will be sold at a nominal price. It will be a capital opportunity for advertisers to advertise through the medium of this hand-book. Advertisements will be received for publication in the official hand-book at the following rates :—

	Rs.
Full page	 20
Half page	 12
Quarter page	 7-8

(Special rates will be charged for advertisements on the pages of the cover and coloured fly leaves and other special positions.)

Applications for these advertisements will be received not later than 20th September 1910 and must be accompanied by a remittance in full payment of the amount due for space applied for.

44. *Communications regarding the Exhibition.*—All communications regarding the Exhibition should be addressed to the Secretary to the Mysore Dasara Industrial and Agricultural Exhibition Committee, Mysore.

G. SUBBUSWAMI IYER,
Secretary.

MYSORE,
Dated 27th June 1910.

NOTES ON THE LACE AND EMBROIDERY SECTION OF THE MYSORE DASARA INDUSTRIAL AND AGRICULTURAL EXHIBITION.

Owing partly to the fact that it is extremely difficult to translate into Indian Vernaculars English terms used for Needle-work and Embroidery, and partly because people do not readily understand the difference between an Exhibition and an ordinary shop or stall, exhibitors have not always understood what articles are required and will be rewarded, and have sent in much to former Exhibitions that, even if good in itself, was debarred from getting any prize by the fact that it was not asked for in the Prospectus.

It has therefore been thought well to publish a few explanatory notes.

The room devoted to the lace and embroidery section is necessarily limited and it is not possible in any one year to include all kinds of needle-work.

If too many specimens are received, they cannot be displayed effectively and the crowding of embroideries, etc., only results in confusion, dust, damage to the exhibits, and prevents their being satisfactorily shown.

Therefore instead of crowding the stalls with masses of needle-work, good and bad, old and new, clean and dirty, whether included in the Prospectus, or not, the Sub-Committee wish the Exhibition to be confined to such specimens only as—

(1) are asked for in the Prospectus,
(2) are considered by them to be really of excellent workmanship,
(3) are new and fresh.

N. B.—Valuable specimens of old embroidery, lace or needle-work should be placed apart in "A loan exhibition."

Exhibitors would do well to note that the best materials available should be used, and that one perfect specimen of any particular work is much more likely to gain a prize than many indifferent specimens. For instance, one silk tie, perfectly knitted in good silk of a nice colour, would stand a better chance of reward than a score of ties carelessly knitted.

Moth-eaten, faded, torn or dirty work cannot be accepted.

Competitors will please note that this year cushions worked in wool work, crewel work, chenille work or bead work are not included in the Prospectus; and also that the bead work and miscellaneous work mentioned in Group III, 5 and 6, are only to be done at the Exhibition itself, before judges, in the working competition; and that no bead work or miscellaneous work is to be sent for Exhibition.

In judging the needle-work, its suitability for use and sale (including the possibility of its being easily cleaned or washed) will be taken into consideration, as well as beauty of design, material, colouring and workmanship.

Preference will be given to Swadeshi exhibits and particularly to those of the Mysore manufacture.

In "the working competition before judges" careful arrangements will be made to respect the gosha or "purdah nashin" and high caste ladies.

All apparatus and materials for that competition must be provided by the competitors. Work may be fixed but not begun.

G. SUBBUSWAMI IYER,
Secretary.

PROSPECTUS OF THE DASARA EXHIBITION OF 1910.

Introductory.—With the sanction of the Government of His Highness the Maharaja of Mysore, the Committee issue the following Prospectus in connection with the Exhibition of 1910.

2. *Opening of the Exhibition.*—This year the Exhibition will be opened to the judges for judging the exhibits and the Press correspondents from the 5th to the 9th, and to the public from the 10th to the 25th of October 1910, both days inclusive. The cattle (local) and poultry show will begin on Saturday 15th October and close on Tuesday 18th.

3. *Object of the Exhibition.*—The primary aim of the Committee is to impart to the Exhibition an educative character and to bring together articles, machinery and processes, the use of which it is desirable to bring to the notice of the raiyat, artizan and the manufacturer by actual demonstration. But as the exhibition of a single specimen may not afford full information and may not be sufficiently attractive to the visiting public, articles intended for sale will also be admitted.

Sale rooms and sale of exhibits.—Articles on a larger scale sent merely for sale will have to be kept in separate stalls and in charge of the exhibitors or their agents. There is no objection to the sale of actual exhibits; but they will not be allowed to be removed from the Exhibition grounds till the termination of the Show. Articles admitted for purposes of sale alone may be removed after purchase. No article will be allowed to leave the Exhibition grounds without a gate pass. Those who desire special facilities for the sale of articles or demonstration of processes, are requested to place themselves in communication with the Secretary to the Exhibition Committee.

4. *Horticultural show.*—The horticultural show comprising Class II, Group 2, items 1 to 7, mentioned in the first section of the Prospectus, will be held on the 15th of October 1910 and kept open till the close of the following day.

5. *Lectures and demonstrations.*—Lectures will be delivered by competent persons in English and Kanarese on subjects connected with Industry, Agriculture, the value of agricultural implements and machines, their cost, construction and repairs. Arrangements will also be made for holding a competition on the Exhibition grounds in Ploughing, Weaving and Pottery work, Home Industries and processes connected therewith. The exact time and place of lectures and demonstrations will be announced later on by handbills and notices.

6. *Donations.*—The Committee would thankfully accept donations for awarding prizes or medals from individuals or associations desiring to give an impetus to any special branch of agriculture or industry.

7. *Classification of exhibits.*—The classification of exhibits will be according to the prize list subjoined to the Prospectus and entries in several sections should be made in the application forms prescribed.

8. *Open to all India.*—The Committee invite exhibits from all the districts of the State as well as from outside. They also appeal to the various agricultural departments and associations in other parts of India, Burma and Ceylon to help them with exhibits and suggestions.

9. *Judges.*—Leading raiyats and non-official gentlemen will be invited to assist the Committee in judging the exhibits.

10. *Admission fees for visitors.*—An admission fee of annas two per head will be levied each time a person enters the Exhibition buildings. Season tickets will be issued at Re. 1 per head. These are not transferable, but books of eight single tickets may be had also at Re. 1 per book. Return railway season tickets between Bangalore and Mysore at a reduced rate which will admit to the Exhibition for the whole period, will be arranged for.

RULES AND REGULATIONS.

1. *Noxious articles.*—Explosives or any substance noxious or dangerous will not be admitted by the Committee.

2. *Particulars regarding the exhibits.*—Intending exhibitors are requested to send to the Secretary to the Exhibition Committee, particulars of exhibits they intend to forward and the amount of space which their exhibits may take up, in the necessary entry form appended to this Prospectus. Forms may also be obtained from the District, Divisional and Taluk Offices or from the Secretary to the Committee; plain paper of foolscap size, may also be used provided all the headings in the form are properly copied and filled up and separate sheets should be used for each section.

3. *Applications from exhibitors.*—Applications should reach the Secretary not later than 10th September 1910. Each application should contain a post card on which the address and the post town of the exhibitor are legibly written.

4. *Lists from taluks.*—Deputy Commissioners of Districts with the District Committee, Sub-Divisional Officers and Amildars of Taluks, are requested to convene, as early as possible, a meeting of the leading artizans, raiyats and merchants residing within their respective charges, to explain to them fully the object and the scope of the Exhibition, to carefully acquaint them with the rules and regulations, drawing particular attention to such paras as 2, 3, 10, etc., to distribute to them forms of applications, to have them filled up by intending exhibitors and to compile and forward them to the Secretary.

5. *Articles not enumerated.*—The classified list of prizes will show the nature of articles which can compete at the Exhibition. Articles not specially enumerated in the prize list may, however, be admitted by the Committee at their discretion.

6. *No fees to be charged for exhibits.*—No fees will be charged for the admission or registration of exhibits or for the space allowed for them.

7. *Acceptance of exhibits.*—The Committee reserve to themselves absolute discretion as regards the acceptance or rejection of exhibits and the allotment of space covered or uncovered.

8. *Delivery of exhibits.*—Articles intended for the Exhibition may be brought by the exhibitor or his agent or servant and delivered at the Exhibition grounds or sent by post or railway and all taluk and district *exhibits should be sent through the Deputy Commissioners of Districts.*

9. *Payment of freight and transport charges.*—No exhibits in respect of which the necessary freight or transport charges have not been paid by the exhibitor, will be accepted by the Committee.

10. *List of particulars.*—All packages received or delivered and all implements and machinery intended for the Exhibition must bear a label specifying name and number of exhibits and the registered number of the exhibitor and must be addressed to the Secretary. They must contain a list in duplicate showing the name or description of the article, its price, the place of production or manufacture, name of the manufacturer or exhibitor; in the case of exhibits in the agricultural section, essential particulars should be given, such as—

1. The season of sowing.
2. The soil on which they are grown.
3. The quantity of seed per acre.
4. The manure used.
5. Whether any irrigation is required.
6. The time required for the maturing of the crop.
7. The average yield per acre.
8. Any other interesting details regarding cultivation.

11. *Exhibits which have already won prizes.*—Exhibits which have won prizes or medals in the Mysore Exhibitions of 1906, 1907, 1908 and 1909 shall be precluded from competing for prizes, though there is no objection to their being accepted for purposes of show or sale.

12. *Date of delivery of the exhibits.*—Intending exhibitors are requested to send the exhibits so as to reach Mysore on the 1st September 1910, from which date the Committee will arrange to take charge of exhibits, *and no exhibits should arrive later than the 20th of September 1910.*

13. *Belated exhibits.*—Articles that are not delivered at the Exhibition Hall in the time fixed, may be admitted at the discretion of the Committee subsequent to the date in para 12; but shall not be entitled to compete for prizes unless accompanied by an admission fee of five per cent of the value of the articles sent, the minimum charges in all such cases being annas eight and the maximum rupees five. The Committee are competent to remit the fees, provided it is proved that the exhibits were not belated through the fault of the exhibitor.

14. *Perishable articles.*—Vegetables, fruits and other perishable articles may, however, be delivered at the Exhibition hall till 7 P.M. on the 14th October 1910.

15. *Admission of exhibits.*—No exhibits will be admitted without a pass signed by the Secretary or members of the Committee on duty at the Exhibition grounds.

16. *Responsibility of the exhibitors.*—Exhibitors will have to pay every expense of transit, delivery, fixing and removing their exhibits and they must either personally or by their agents or servants superintend their reception and removal, in default of which, the Committee reserve to themselves the right of doing whatever may be considered necessary at the expense of the exhibitor.

17. *Committee accept no responsibility.*—No responsibility will be accepted by the Committee as to any damage or loss, howsoever occurring.

18. *Special facilities.*—Exhibitors are requested to mention in their applications whether they wish to illustrate practically any process of manufacture or the working of any implement or machinery and if so, to state briefly the nature of the demonstration and any special facilities they require.

19. *Special arrangements to be made at the exhibitor's expense.*—If the exhibitors require any special arrangements to be made (or have to mount their machinery) they must carry them out at their expense; but the Committee will be glad to give such aid as may be possible in the shape of getting skilled or unskilled manual labour at the exhibitor's expense. The expenses of demonstrating machinery and implements should be borne by the exhibitor except where special arrangements have been made with the Committee.

20. *Valuable exhibits.*—All valuable exhibits must be forwarded under the charge of an attender.

21. *Exhibits unaccompanied by men in charge.*—Exhibitors who are unable to attend personally or send their agents in charge of exhibits, may make special arrangements with the Committee for the exhibition of their goods on payment in advance in full, of the estimated expense.

22. *Weighing of exhibits.*—The Committee entrust the work of receiving the exhibits to responsible officials. But as the goods are landed near the Exhibition grounds by special arrangements, it is not possible to weigh every consignment before taking delivery of it. So the exhibitors are requested to take every precaution in packing their exhibits and to send to the Committee in time, an accurate list of exhibits sent by them. Exhibitors who wish that their consignment should be weighed at the Railway Station before delivery, should intimate their wish to the Secretary in time and remit in advance a special fee of one rupee on each consignment to be thus weighed.

23. *Acknowledgment of exhibits.*—Receipt of exhibits will be acknowledged by return of the duplicate list mentioned in para 10 to the exhibitors, duly signed by the Secretary. No other kind of receipt shall be sent. Any difference between the list and the articles actually received will be noted in the duplicate list.

24. *Free pass to exhibitors.*—In cases in which the owners themselves are in charge of exhibits, the necessary free pass will be given.

25. *Free admission to bona-fide raiyats and artizans.*—Raiyats and artizans unable to pay fees, belonging to the Mysore State or from outside, who produce certificates of identification signed by their respective Taluk Officers in Form B appended to this Prospectus, will be admitted free

26. *Space for articles on sale.*—Accommodation for articles to be sold by owners will be found in the sale rooms erected within the Exhibition grounds, as far as possible, and a nominal rent will be charged for special accommodation, and 3 per cent will be charged on the sales conducted in the sale rooms by the exhibitors themselves or their agents. Sellers may have temporary booths put up at their own cost in the Exhibition grounds by previous arrangements with the Committee.

27. *Exhibits for sale.*—Exhibits labelled 'for sale' will be sold during the time the Exhibition lasts; but no article will be removed till the close of the Exhibition.

28. *Commission on sales.*—A commission of half an anna in the rupee will be levied on all articles sold in the Exhibition stalls and grounds through the salesmen appointed by the Exhibition authorities. In this case the money will be received and remitted to the exhibitor by the Exhibition office.

29. *Removal of exhibits.*—All exhibits must be removed within a fortnight after the close of the Exhibition. Exhibits remaining after that time will be disposed of as the Committee deem fit. Perishable articles will be allowed to be removed at the option of the owners or purchasers within 24 hours after the opening of the Exhibition.

30. *Exhibits on loan.*—Works of art and articles of special merit including those of antiquarian interest will be thankfully received. Gentlemen willing to lend them are requested to place themselves in communication with the Secretary or any of the members of the Committee who will inform them of the acceptance of the offer and will make necessary arrangements in connection with the exhibition of articles.

31. *Exhibits belonging to Departments of Government.*—Articles or cattle exhibited by any Department of Government will not be eligible for money prizes or medals; but may be awarded certificates of merit. Certificates of merit will also be given to such of the exhibits from private gentlemen as have not been provided for in the Prospectus, if they are considered by the judges worthy of the same. (This rule does not preclude Government servants or pupils of Industrial Schools from competing for prizes, if the exhibits are manufactured by themselves.)

32. *Admission of live-stock.*—The time of the year when the owners of cattle are fully engaged in the fields, having been found very unsuitable for a regular cattle show, it has been decided to restrict the show to the fine specimens of local (Mysore City) cattle irrespective of breeds and classes.

33. *Accommodation for cattle.*—Accommodation will be provided free of cost.

34. *Practical test.*—Working cattle may, at the owners' option, be subjected to a practical test as to their powers of draught. They must be the *bonâ-fide* property of the exhibitor.

35. *Care-taker.*—Each animal or lot competing separately must be in charge of a care-taker who will remain in charge of the exhibit and must be ready to lead it out at any time as required by the Committee.

36. *Poultry show.*—A class has been opened in the Prospectus for poultry and prizes will be awarded for different pure strains.

37. *Poultry appliances.*—Prizes will also be awarded for incubators and other poultry appliances.

38. *Distribution of awards.*—Prizes and medals will be distributed at the close of the Exhibition. This year it is proposed to hold a distribution of prizes in the Exhibition grounds on or about the 25th October 1910.

39. *Number of judges.*—The judges in each class or group will not be less than three, but no prizes will be awarded unless, in the opinion of the judges, the exhibits merit the reward. Judges cannot compete for prizes in classes or sections in which they are judges, and the decision of the judges is final.

40. *Photograph of articles exhibited.*—No articles exhibited may be copied, photographed, drawn or reproduced in any manner without the special permission of the exhibitor and the Committee. General photographs of stalls may, however, be taken with the permission of the Committee.

41. *Committee's decision final.*—The Committee have full power to make rules for the conduct of the Exhibition under these regulations, and their decision is final in all cases.

42. *Acceptance of rules.*—All persons who become exhibitors shall be held to signify their assent to and acceptance of the foregoing rules and regulations and also such other rules as the Committee may hereafter issue not inconsistent with these regulations.

43. *Official hand-book.*—An official hand-book of all exhibits with the names and the addresses of the exhibitors and their agent or agents, if any, will be published before the opening of the Exhibition without any further cost to the exhibitors. It is expected that a large number of people will visit the Exhibition and that many of them will probably purchase the official hand-book which will be sold at a nominal price. It will be a capital opportunity for advertisers to advertise through the medium of this hand-book. Advertisements will be received for publication in the official hand-book at the following rates :—

	Rs.
Full page	 20
Half page	 12
Quarter page	 7-8

(Special rates will be charged for advertisements on the pages of the cover and coloured fly leaves and other special positions.)

Applications for these advertisements will be received not later than 20th September 1910 and must be accompanied by a remittance in full payment of the amount due for space applied for.

44. *Communications regarding the Exhibition.*—All communications regarding the Exhibition should be addressed to the Secretary to the Mysore Dasara Industrial and Agricultural Exhibition Committee, Mysore.

G. SUBBUSWAMI IYER,
Secretary.

MYSORE,
Dated 27th June 1910.

NOTES ON THE LACE AND EMBROIDERY SECTION OF THE MYSORE DASARA INDUSTRIAL AND AGRICULTURAL EXHIBITION.

Owing partly to the fact that it is extremely difficult to translate into Indian Vernaculars English terms used for Needle-work and Embroidery, and partly because people do not readily understand the difference between an Exhibition and an ordinary shop or stall, exhibitors have not always understood what articles are required and will be rewarded, and have sent in much to former Exhibitions that, even if good in itself, was debarred from getting any prize by the fact that it was not asked for in the Prospectus.

It has therefore been thought well to publish a few explanatory notes.

The room devoted to the lace and embroidery section is necessarily limited and it is not possible in any one year to include all kinds of needle-work.

If too many specimens are received, they cannot be displayed effectively and the crowding of embroideries, etc., only results in confusion, dust, damage to the exhibits, and prevents their being satisfactorily shown.

Therefore instead of crowding the stalls with masses of needle-work, good and bad, old and new, clean and dirty, whether included in the Prospectus, or not, the Sub-Committee wish the Exhibition to be confined to such specimens only as—

(1) are asked for in the Prospectus,
(2) are considered by them to be really of excellent workmanship,
(3) are new and fresh.

N. B.—Valuable specimens of old embroidery, lace or needle-work should be placed apart in "A loan exhibition."

Exhibitors would do well to note that the best materials available should be used, and that one perfect specimen of any particular work is much more likely to gain a prize than many indifferent specimens. For instance, one silk tie, perfectly knitted in good silk of a nice colour, would stand a better chance of reward than a score of ties carelessly knitted.

Moth-eaten, faded, torn or dirty work cannot be accepted.

Competitors will please note that this year cushions worked in wool work, crewel work, chenille work or bead work are not included in the Prospectus; and also that the bead work and miscellaneous work mentioned in Group III, 5 and 6, are only to be done at the Exhibition itself, before judges, in the working competition; and that no bead work or miscellaneous work is to be sent for Exhibition.

In judging the needle-work, its suitability for use and sale (including the possibility of its being easily cleaned or washed) will be taken into consideration, as well as beauty of design, material, colouring and workmanship.

Preference will be given to Swadeshi exhibits and particularly to those of the Mysore manufacture.

In "the working competition before judges" careful arrangements will be made to respect the gosha or "purdah nashin" and high caste ladies.

All apparatus and materials for that competition must be provided by the competitors. Work may be fixed but not begun.

G. SUBBUSWAMI IYER,
Secretary.

8. Market well supplied.

9. *Standing crops*, such as sesamum, ragi, jola, sugar-cane, paddy, chillies, wild gingelly, green gram, avare, togari, castor, horse gram and cotton are reported to be in good condition.

Seeds sown.—Navane, sajje, cotton and ragi in the Chitaldrug, Challakere and Hiriyur Taluks; navane and cotton in the Holalkere and Jagalur Taluks; samé in the Challakere Taluk; castor in the Challakere, Jagalur and Hiriyur Taluks; togari, paddy and avare in the Hiriyur and Jagalur Taluks; tadagani, green and black grams in the Hiriyur Taluk; ragi and jola in the Jagalur Taluk.

Crops harvested.—Ragi in the Challakere Taluk, yield 12 annas.

The rainfall during the present and past weeks has enabled the raiyats to sow seeds. The standing crops have also been benefited.

10. Prospects of the season are good. Food stuffs are available.

11. Public health is generally good.

12. Cattle are healthy. Water and fodder are available.

Prices of food grains—Rice	...	7·47	8·05	seers per rupee.
Ragi	...	14·18	13·40	

Rangoon rice, 2nd sort, 9·20 seers per rupee.

Quantity per rupee by the standard seer of 80 tolas.

Agricultural operations.—Weeding in ragi fields.

Cattle are in good condition.

Water and fodder are sufficient.

BANGALORE CITY AND TALUKS.

8. Market well supplied

9. *Agricultural operations.*—Harrowing in parts of Dodballapur and Nelamangala Taluks, weeding of ragi crops in parts of Bangalore, Kankanhalli, Channapatna, Anekal and Devanhalli Taluks are going on. Transplanting of paddy crops in parts of Kankanhalli and Channapatna Taluks has commenced. Harvesting of Vaisakhi paddy in parts of Hoskote Taluk, of til in parts of Magadi, Anekal and Devanhalli Taluks is going on.

Crops sown.—Kulthi in parts of Bangalore, Hoskote, Dodballapur, Kankanhalli and Devanhalli Taluks; ragi, avare in parts of Hoskote and Anekal Taluks; Kartika paddy in parts of Bangalore, Hoskote and Devanhalli Taluks and samé in parts of Bangalore Taluk.

State of standing crops.—Almost all the dry and wet crops are in good condition; but excessive rainfall has affected the growth of ragi crop. It is reported that it has also damaged the ragi crop in parts of the Channapatna Taluk

Outturn of harvests.—Til in parts of Kankanhalli, yield 8 annas and in parts of Devanhalli, yield 4 to 8 annas.

Damage done to crops.—Punaji paddy in parts of Anekal is reported to be infected with 'Kembatti' roga.

10. Prospects of the season are good, but excessive rainfall has affected the growth of ragi crop. Food stuffs are sufficiently available. Labor is available to the cooly classes.

11. Except for the prevalence of plague in Channapatna Town and in its neighbouring villages and dysentery among children in Kankanhalli Town, public health is generally good.

12. Except for rinderpest prevalent in parts of Kankanhalli Taluk, cattle are healthy. Water, pasture and fodder are available.

KOLAR.

8. Market well supplied.

9. *Agricultural operations.*—Ploughing and sowing operations are going on in almost all the taluks and weeding in Malur and Srinivaspur.

Crops sown.—Kartika paddy is sown in all the taluks, except Chintamani, Malur and Srinivaspur; ragi in Bagepalli; horse gram in Bowringpet, Chintamani, Sidlaghatta, Chikballapur, Bagepalli, Goribidnur, Srinivaspur and Gudibanda; hutchellu in Bowringpet and Sidlaghatta; castor in Gudibanda and samé in Bagepalli.

State of standing crops.—Sugar-cane, paddy, gidda ragi and mulberry are reported to be in good condition; and it is reported that the ragi crop in some parts of the Chikballapur Taluk is getting pale owing to excess of rain and that the samé crop in Gulur hobli in Bagepalli is affected by 'Kambli hula'.

Crops harvested.—Paddy in Goribidnur, yield 8 to 12 annas. Sajje and gingelly, yield 12 annas and sesamum in Malur, yield 8 annas.

Agricultural operations.—Weeding in ragi fields.

Cattle are in good condition.

Water and fodder are sufficient.

BANGALORE CITY AND TALUKS.

8. Market well supplied.

9. *Agricultural operations.*—Weeding and transplanting in ragi fields is going on in parts of Bangalore, Kankanhalli, Magadi, Channapatna and Devanhalli Taluks. Reaping of til crops is still being continued in parts of Bangalore, Magadi and Devanhalli Taluks. Harrowing is going on in parts of Dodballapur and Nelamangala Taluks.

Crops sown.—Kulti in parts of Bangalore, Dodballapur, Kankanhalli and Magadi Taluks; paddy in parts of Bangalore, Kankanhalli, Anekal and Devanhalli Taluks.

State of standing crops.—Almost all the dry crops are reported to be fair, and the wet crops to be good. Excessive rainfall has affected the growth of the ragi crop, which in parts of the Channapatna Taluk is reported to have been damaged by excessive moisture.

Outturn of the harvest.—Til in parts of Kankanhalli Taluk, yield 8 annas; in Devanhalli Taluk, yield 4 to 8 annas; cholam in parts of Devanhalli Taluk, yield 4 to 8 annas.

10. Prospects of the season are fair. Food crops are sufficiently available. Labor is available to the cooly classes.

11. Except for the prevalence of plague in Channapatna Town and in its neighbouring villages, public health is generally good.

12. Except for rinderpest prevalent in parts of Kankanhalli Taluk, cattle are healthy. Water, green pasture and fodder are available.

KOLAR.

8. Market well supplied.

9. *Agricultural operations.*—Ploughing and sowing operations are going on in almost all the taluks, weeding in Sidlaghatta, Malur and Srinivaspur.

Crops sown.—Paddy is sown in Bowringpet, Mulbagal, Srinivaspur, Sidlaghatta, Chikballapur, Bagepalli, Goribidnur and Gudibanda; and horse gram in Bowringpet, Chintamani, Srinivaspur, Sidlaghatta, Chikballapur, Bagepalli, Malur, Goribidnur and Gudibanda.

State of standing crops.—Sugar cane, paddy, gidda ragi and mulberry are reported to be in good condition; but ragi in parts of Kolar, Chikballapur and Srinivaspur is affected by excessive rain in parts.

Crops harvested and their estimated outturn.—Paddy in Goribidnur, yield 8 to 12 annas; til in Malur, yield 6 annas; gidda ragi in Gudibanda, yield 8 annas; thuraji samé and til in Bowringpet, yield 12 annas and 8 to 8 annas, respectively, and gingelly in Mulbagal.

10. Prospects of the season are good. Food stuffs are available. Labor is available to the cooly classes.

11. Except for smallpox in some villages of Bagepalli Taluk, public health is generally good.

12. Cattle are reported to be healthy. Water and fodder are available in all the taluks.

TUMKUR.

8. Market well supplied.

9. *Crops sown.*—Ragi, avare and togari in Gubbi; paddy in Maddagiri, Sira, Pavagada, Kunigal, Koratagere and Turuvekere; horse gram in Tumkur, Maddagiri, Sira, Gubbi, Tiptur, Pavagada, Kunigal and Turuvekere; samé and gingelly in Tumkur; haraka and castor in Chiknayakanhalli; Bengal gram and coriander in Tiptur; and navane in Pavagada.

Crops harvested.—Paddy in Gubbi, Tiptur and Kunigal; nat ragi in Sira and Pavagada; black and green grams in Chiknayakanhalli and Tiptur; til in Maddagiri, Tiptur and Turuvekere; baragu in Chiknayakanhalli and Turuvekere; sugar cane in Kunigal and jola in Turuvekere.

Condition of crops.—Good in Sira, Gubbi, Tiptur, Kunigal, Koratagere and Turuvekere and parts of Maddagiri, fair in Tumkur. Excessive rain has retarded the growth of crops in Chiknayakanhalli, Pavagada and parts of Maddagiri.

10. Prospects of the season are on the whole good. Food grains are available. Cooly is available to the labouring classes.

11. Except for smallpox in a single village of Chiknayakanhalli, public health elsewhere is generally good.

12. Water and fodder are available in all the taluks.

MYSORE.

8. Market fairly well supplied.

9. *Crops sown.*—Horse gram in parts of Yedatore, Heggaddevankote, Gundlupet, Malvalli and Mandya Taluks, and paddy in parts of Malvalli, Mandya and Nagamangala Taluks.

Standing crops are reported to be in a good condition.

Crops harvested.—Cholam in parts of the Chamrajnagar, Yedatore, Gundlupet, T.-Narsipur, Malvalli, Mandya and Krishnarajpete Taluks; til in parts of the Yedatore, Heggaddevankote, Gundlupet and Krishnarajpete Taluks; ragi in parts of the Heggaddevankote Taluk; coriander in parts of the Gundlupet Taluk, and paddy in parts of the Krishnarajpete Taluk.

Outturn of crops.—Til, cholum and paddy in parts of the Krishnarajpete Taluk, yield 8 annas.

10. Prospects of the season are good. Food stuffs are available.

11. Except for plague in parts of the Mysore, Chamrajnagar, Seringapatam, Nanjangud, T.-Narsipur Taluks and French Rocks Sub-Taluk and cholera in parts of the T.-Narsipur Taluk, public health is generally good. Cholera in parts of the Mandya Taluk is abating.

12. Except for "Dod Roga" in parts of the Hunsur and Gundlupet Taluks, the cattle are reported to be healthy. Water and fodder are available.

HASSAN.

NOTIFICATION.

No. R. 2067—Agri. 39-10-2, dated Bangalore 1st October 1910.

The following communication dated the 29th July 1910, regarding the conditions imposed by the Government of the Commonwealth of Australia in respect of the importation of corn sacks into that Colony, is published for general information.

COMMONWEALTH OF AUSTRALIA,
Governor-General's Office,
Melborne, 29th July 1910.

Your Excellency,—

I have the honour to transmit herewith, for the information of the Government of India, two copies of a Proclamation, dated the 13th February 1908, announcing that, on and after the 15th of May 1908, the importation into the Commonwealth of Australia of corn sacks other than that of a certain specific weight, size and quality will be prohibited.

2. I am informed by His Majesty's Prime Minister of the Commonwealth that in view of recent attempted importation of sacks not complying with the standard description, the Federal Government think it desirable that the Government of India should be asked to give publicity to the terms of the Proclamation and informed that the conditions therein must be carefully observed by manufacturers if the penalties including forfeiture of the sacks are to be avoided.

3. Whilst the weight specified in the Proclamation is that of the sacks when baled, it is desired manufacturers should clearly understand that explanations of short weight by excessive evaporation will not be seriously considered, and that no allowance in exceptional cases on that account in excess of ten pounds per bale will be permitted.

4. In regard to the porter and shot, it is frequently asserted that it is difficult, if not impossible, to be precise throughout in the texture. It is found, however, that the greater volume of consignments is satisfactory in that particular, and therefore there is no reason why that requirement should not be complied with.

5. The size should not be less or more than that prescribed and any sacks not conforming to that special condition are also liable to forfeiture.

6. It is proposed to stringently enforce the precise conditions of the Proclamation, and it is considered much inconvenience and loss will be avoided by manufacturers if greater care is taken to comply with the specific conditions of Australian requirements.

I have, etc.,
(Signed) DUDLEY,
Governor-General.

To

His Excellency the Viceroy and Governor-General of India, Simla.

Extract from Commonwealth of Australia Gazette, No. 9, dated the 15th February 1908.

PROCLAMATION.

Commonwealth of Australia, to wit,
Northcote,
Governor-General.

By His Excellency the Right Honourable Henry Stafford, Baron Northcote, Knight Grand Cross of the Most Distinguished Order of Saint Michael and Saint George, Knight Grand Commander of the Most Eminent Order of the Indian Empire, Companion of the Most

Honourable Order of the Bath, Governor-General and Commander-in-Chief in and over the Commonwealth of Australia.

Whereas by the Customs Act, 1901, it is enacted that all goods the importation of which may be prohibited by Proclamation are prohibited imports, and that the power of prohibiting the importation of goods shall authorise prohibition subject to any specified condition or restriction, and that goods imported contrary to any such condition or restriction shall be prohibited imports: and whereas by a Proclamation dated the seventh day of June 1905, and published in the Gazette on the seventeenth day of June 1905, it was declared that from and after the first day of September 1905, the importation of corn sacks into Australia contrary to the conditions and restrictions contained in such Proclamation should be prohibited and whereas it is desirable to revoke the said Proclamation and to make this Proclamation in lieu thereof: now therefore I, Henry Stafford, Baron Northcote, the Governor-General aforesaid, acting with the advice of the Federal Executive Council, do hereby revoke the said Proclamation as from the fourteenth day of May 1908, and do hereby proclaim that, on and after the fifteenth day of May 1908, the importation of corn sacks into Australia shall be subject to the following conditions and restrictions, namely, that the corn sacks shall comply with the standard hereinafter set out, and that the bales containing those corn sacks shall be plainly branded or marked with the trade name, measurement, weight, porter and shot of the corn sacks therein contained: and I hereby declare that the standard for corn sacks shall be as follows:—

Size—41 inches by 23 inches.
Weight when baled—2¼ lbs.
Substance—8 porter, 9 shot.

And I declare that the importation of corn sacks into Australia contrary to the conditions and restrictions contained in this Proclamation shall be prohibited as from the said 15th day of May 1908.

Given under my hand and the Great Seal of the Commonwealth of Australia this thirteenth day of February in the year of Our Lord, one thousand and nine hundred and eight, and in the eighth year of His Majesty's reign.

By His Excellency's Command,
AUSTIN CHAPMAN.

GOD SAVE THE KING.

Seal

By Order,
C. S. BALASUNDARAM IYER,
Officiating Secretary to Government, General and Revenue Departments.

NOTIFICATION.

No. R. 2067—Agri. 39-10-2, dated Bangalore 1st October 1910.

The following communication dated the 29th July 1910, regarding the conditions imposed by the Government of the Commonwealth of Australia in respect of the importation of corn sacks into that Colony, is published for general information.

COMMONWEALTH OF AUSTRALIA,
Governor-General's Office,
Melborne, 29th July 1910.

Your Excellency,—

I have the honour to transmit herewith, for the information of the Government of India, two copies of a Proclamation, dated the 13th February 1908, announcing that, on and after the 15th of May 1908, the importation into the Commonwealth of Australia of corn sacks other than that of a certain specific weight, size and quality will be prohibited.

2. I am informed by His Majesty's Prime Minister of the Commonwealth that in view of recent attempted importation of sacks not complying with the standard description, the Federal Government think it desirable that the Government of India should be asked to give publicity to the terms of the Proclamation and informed that the conditions therein must be carefully observed by manufacturers if the penalties including forfeiture of the sacks are to be avoided.

3. Whilst the weight specified in the Proclamation is that of the sacks when baled, it is desired manufacturers should clearly understand that explanations of short weight by excessive evaporation will not be seriously considered, and that no allowance in exceptional cases on that account in excess of ten pounds per bale will be permitted.

4. In regard to the porter and shot, it is frequently asserted that it is difficult, if not impossible, to be precise throughout in the texture. It is found, however, that the greater volume of consignments is satisfactory in that particular, and therefore there is no reason why that requirement should not be complied with.

5. The size should not be less or more than that prescribed and any sacks not conforming to that special condition are also liable to forfeiture.

6. It is proposed to stringently enforce the precise conditions of the Proclamation, and it is considered much inconvenience and loss will be avoided by manufacturers if greater care is taken to comply with the specific conditions of Australian requirements.

I have, etc.,
(Signed) DUDLEY,
Governor-General.

To

His Excellency the Viceroy and Governor-General of India, Simla.

Extract from Commonwealth of Australia Gazette, No. 9, dated the 15th February 1908.

PROCLAMATION.

Commonwealth of Australia, to wit,
Northcote,
Governor-General.

By His Excellency the Right Honourable Henry Stafford, Baron Northcote, Knight Grand Cross of the Most Distinguished Order of Saint Michael and Saint George, Knight Grand Commander of the Most Eminent Order of the Indian Empire, Companion of the Most

Honourable Order of the Bath, Governor-General and Commander-in-Chief in and over the Commonwealth of Australia.

Whereas by the Customs Act, 1901, it is enacted that all goods the importation of which may be prohibited by Proclamation are prohibited imports, and that the power of prohibiting the importation of goods shall authorise prohibition subject to any specified condition or restriction, and that goods imported contrary to any such condition or restriction shall be prohibited imports : and whereas by a Proclamation dated the seventh day of June 1905, and published in the Gazette on the seventeenth day of June 1905, it was declared that from and after the first day of September 1905, the importation of corn sacks into Australia contrary to the conditions and restrictions contained in such Proclamation should be prohibited and whereas it is desirable to revoke the said Proclamation and to make this Proclamation in lieu thereof: now therefore I, Henry Stafford, Baron Northcote, the Governor-General aforesaid, acting with the advice of the Federal Executive Council, do hereby revoke the said Proclamation as from the fourteenth day of May 1908, and do hereby proclaim that, on and after the fifteenth day of May 1908, the importation of corn sacks into Australia shall be subject to the following conditions and restrictions, namely, that the corn sacks shall comply with the standard hereinafter set out, and that the bales containing those corn sacks shall be plainly branded or marked with the trade name, measurement, weight, porter and shot of the corn sacks therein contained : and I hereby declare that the standard for corn sacks shall be as follows :—

Size—41 inches by 23 inches.
Weight when baled—2¼ lbs.
Substance—8 porter, 9 shot.

And I declare that the importation of corn sacks into Australia contrary to the conditions and restrictions contained in this Proclamation shall be prohibited as from the said 15th day of May 1908.

Given under my hand and the Great Seal of the Commonwealth of Australia this thirteenth day of February in the year of Our Lord, one thousand and nine hundred and eight, and in the eighth year of His Majesty's reign.

By His Excellency's Command,
AUSTIN CHAPMAN.

GOD SAVE THE KING.

Seal

By Order,
C. S. BALASUNDARAM IYER,
Officiating Secretary to Government, General and Revenue Departments.

NOTIFICATION.

No. R. 2067—Agri. 39-10-2, dated Bangalore, 1st October 1910.

The following communication dated the 29th July 1910, regarding the conditions imposed by the Government of the Commonwealth of Australia in respect of the importation of corn sacks into that Colony, is published for general information.

COMMONWEALTH OF AUSTRALIA,

Governor-General's Office,

Melborne, 29th July 1910.

Your Excellency,—

I have the honour to transmit herewith, for the information of the Government of India, two copies of a Proclamation, dated the 13th February 1908, announcing that, on and after the 15th of May 1908, the importation into the Commonwealth of Australia of corn sacks other than that of a certain specific weight, size and quality will be prohibited.

2. I am informed by His Majesty's Prime Minister of the Commonwealth that in view of recent attempted importation of sacks not complying with the standard description, the Federal Government think it desirable that the Government of India should be asked to give publicity to the terms of the Proclamation and informed that the conditions therein must be carefully observed by manufacturers if the penalties including forfeiture of the sacks are to be avoided.

3. Whilst the weight specified in the Proclamation is that of the sacks when baled, it is desired manufacturers should clearly understand that explanations of short weight by excessive evaporation will not be seriously considered, and that no allowance in exceptional cases on that account in excess of ten pounds per bale will be permitted.

4. In regard to the porter and shot, it is frequently asserted that it is difficult, if not impossible, to be precise throughout in the texture. It is found, however, that the greater volume of consignments is satisfactory in that particular, and therefore there is no reason why that requirement should not be complied with.

5. The size should not be less or more than that prescribed and any sacks not conforming to that special condition are also liable to forfeiture.

6. It is proposed to stringently enforce the precise conditions of the Proclamation, and it is considered much inconvenience and loss will be avoided by manufacturers if greater care is taken to comply with the specific conditions of Australian requirements.

I have, etc.,
(Signed) DUDLEY,
Governor-General.

To

His Excellency the Viceroy and Governor-General of India, Simla.

Extract from Commonwealth of Australia Gazette, No. 9, dated the 15th February 1908.

PROCLAMATION.

Commonwealth of Australia, to wit,
Northcote,
Governor-General.

By His Excellency the Right Honourable Henry Stafford, Baron Northcote, Knight Grand Cross of the Most Distinguished Order of Saint Michael and Saint George, Knight Grand Commander of the Most Eminent Order of the Indian Empire, Companion of the Most

Honourable Order of the Bath, Governor-General and Commander-in-Chief in and over the Commonwealth of Australia.

Whereas by the Customs Act, 1901, it is enacted that all goods the importation of which may be prohibited by Proclamation are prohibited imports, and that the power of prohibiting the importation of goods shall authorise prohibition subject to any specified condition or restriction, and that goods imported contrary to any such condition or restriction shall be prohibited imports: and whereas by a Proclamation dated the seventh day of June 1905, and published in the Gazette on the seventeenth day of June 1905, it was declared that from and after the first day of September 1905, the importation of corn sacks into Australia contrary to the conditions and restrictions contained in such Proclamation should be prohibited and whereas it is desirable to revoke the said Proclamation and to make this Proclamation in lieu thereof: now therefore I, Henry Stafford, Baron Northcote, the Governor-General aforesaid, acting with the advice of the Federal Executive Council, do hereby revoke the said Proclamation as from the fourteenth day of May 1908, and do hereby proclaim that, on and after the fifteenth day of May 1908, the importation of corn sacks into Australia shall be subject to the following conditions and restrictions, namely, that the corn sacks shall comply with the standard hereinafter set out, and that the bales containing those corn sacks shall be plainly branded or marked with the trade name, measurement, weight, porter and shot of the corn sacks therein contained: and I hereby declare that the standard for corn sacks shall be as follows:—

Size—41 inches by 23 inches.
Weight when baled—2¼ lbs.
Substance—8 porter, 9 shot.

And I declare that the importation of corn sacks into Australia contrary to the conditions and restrictions contained in this Proclamation shall be prohibited as from the said 15th day of May 1908.

Given under my hand and the Great Seal of the Commonwealth of Australia this thirteenth day of February in the year of Our Lord, one thousand and nine hundred and eight, and in the eighth year of His Majesty's reign.

By His Excellency's Command,
AUSTIN CHAPMAN.

GOD SAVE THE KING.

Seal

By Order,
C. S. BALASUNDARAM IYER,
Officiating Secretary to Government, General and Revenue Departments.

No. 4044-51, *dated* 1*st October* 1910.

OFFICIAL MEMORANDUM.

Subject:—

Government Proceedings No. R. 1918-26—Agri. 20-09-3, dated 1st September 1909, directing that the next census of Agricultural Stock be held in conjunction with the forthcoming preliminary General Census, but that a careful enumeration of the Agricultural Stock may, however, be made during the current year's (1909-10) Khaneshmari and the results published districtwar with a review by the Revenue Commissioner.

1. The Deputy Commissioners of Districts were requested, in this office Circular No. 3109-16, dated 6—8th September 1909, to issue instructions to the taluk and village officers to arrange for the careful preparation of the Khaneshmari account of 1909-10, and to forward to this office before the end of April 1910, hobli and taluk abstracts of Agricultural Stock.

2. The following statement shows the dates on which the returns were received in this office:—

District	*Date*
1. Chitaldrug	26th April 1910.
2. Kadur	10th June 1910.
3. Hassan	11th June 1910.
4. Kolar	16th June 1910.
5. Shimoga	30th July 1910.
6. Bangalore	2nd August 1910.
7. Tumkur	16th September 1910.
8. Mysore	

The results of Agricultural Stock, as compared with the figures of the second quinquennial census taken in 1904, are exhibited in the accompanying statement. The figures are very interesting and suggestive and furnish eloquent evidence of the disastrous effects of the distress of 1908-09.

3. The most noticeable item is the decrease under 'Young Stock' *viz.*, 561,615 or over 45 per cent of the total of 1904, which is out of all proportion to the fall in cows and she-buffaloes. This must be due to the inclusion of calves under one year in the special Cattle Census of 1904-05, while they are not taken into account in the enumeration at the annual Khaneshmari. The falling off under bulls is but small being about 2 per cent, while that under cows is about 3·4 per cent which shows that draught bulls, being more valuable, had greater care bestowed on their preservation than on the others. Then again the proportionately heavier loss in she-buffaloes, of over 15 per cent, shows that they were less able to survive the severe drought than the bulls and cows. There is a slight increase in sheep, while the goats have declined by nearly 8 per cent. As a rule sheep are able to find nibbling grass even in a drought, while the larger animals have to starve. The goats are perhaps harder hit in a drought on account of the fading of green plants and bushes. It is also highly probable that the effects of the Forest Regulations, restricting their admission into Plantations and Reserved Forests, have had some effect in discouraging the maintenance of goats.

4. The fall of 15,000 ploughs is merely nominal and indicates that, owing to restricted cultivation in the year, the raiyats did not keep up the usual number of ploughs. It is worthy of note that the decrease is just half of that in the bulls. The number of carts is scarcely affected by a single bad season, and the activity in grain supply may rather stimulate the need for them.

5. Coming now to consider the figures according to districts, it will be observed that the loss in horned cattle is heaviest in Tumkur, Kolar and Chitaldrug, which fared worst in the drought, while Mysore and Hassan, which suffered comparatively less and had greater reserve of forest resources, record an actual improvement; the district of Bangalore has suffered little, and the districts of Shimoga and Kadur (with the maidan parts which were affected equally with the other maidan tracts and the malnad in which cattle do not thrive) have also suffered to a moderate extent. How far these conclusions are justified will be illustrated by the results of the Third Cattle Census which will be taken in the early part of 1911.

A. RANGASWAMI IYENGAR,
Revenue Commissioner.

REVENUE COMMISSIONER'S OFFICE,
Dated Bangalore, 24th October 1910.

A. RANGASWAMI IYENGAR,
Revenue Commissioner in Mysore.

Notification No. R. 2271—*Agri.* 48-10-2, *dated 27th October* 1910.

The following prospectus of the Cochin State Agricultural and Industrial Exhibition and Cattle Show to be held at Trichur in December 1910, is published for general information.

By Order,
C. S. BALASUNDARAM IYER,
Officiating Secretary to Government, General and Revenue Departments.

THE THIRD

AGRICULTURAL AND INDUSTRIAL EXHIBITION AND CATTLE SHOW

COCHIN STATE—1086.

Prospectus.

It is proposed to hold an exhibition of agricultural and industrial products and cattle show in the Promenade (Hannyngton Mantapam) opposite to the Public Offices at Trichur. The exhibition will commence on Saturday, the 17th December 1910, and will be kept open till the 2nd January 1911.

2. *Object of the exhibition.*—The primary object of the exhibition is to bring together agricultural and industrial products, machinery, etc., the use of which it is desirable that the raiyat and artisan should understand. The cattle show is intended to give to the raiyats an idea of the several species of cattle in and out of the State and thus to promote improved methods of breeding, etc.

3. Lectures will be delivered by competent persons in Malayalam on subjects connected with industry, agriculture, improved implements, cattle-breeding, etc. Demonstrations will also be arranged. There will also be competitions on the exhibition grounds in ploughing, weaving, etc.

4. Exhibits are generally divided into (1) samples and (2) exhibits for sale.

The several groups and classes of exhibits which will be admitted for the exhibition are given in the appendix. Articles for sale will also be admitted.

5. Arrangements are made to promote competition and to induce raiyats, etc., to exhibit the best products available by awarding prizes, to the value of Rs. 1,500.

The appendix gives the amount set apart for prizes, under each group of exhibits.

The number and the value of the prizes to be awarded for each class of exhibits will be decided by a Committee of Judges with reference to the quality, etc., of the exhibits received.

6. Exhibits, etc., which are the *bona fide* agricultural and industrial products of the State will be given special prizes as shown in the appendix. All exhibits will compete for the general prizes.

7. *Plan of exhibition grounds and buildings.*—The exhibition grounds and buildings will be divided into several stalls. Separate stalls will be provided for samples and exhibits for sale. Special arrangements will be made for the cattle show yards.

Outside the cattle show yards will be held a cattle fair in which sales can be effected.

8. No fee will be charged on exhibits of any kind, or for the space allotted for exhibits. Those who desire to have special facilities for sales of articles or demonstrations are requested to address the Agricultural Superintendent, Trichur.

9. *Admission fee for visitors.*—An admission fee of 6 pies per head will be levied, each time a person enters the exhibition grounds. Children under 10 years of age and *bona fide* students bearing passes will be exempted.

10. The Government invite exhibits from all parts of the State as well as from outside. They hope that the Agricultural and Industrial Associations and other public bodies will help them with exhibits and suggestions.

11. The Government would thankfully accept donations for special prizes, medals, etc., from individual raiyats or associations, interested in any special branch of agriculture or industry.

12. *Applications from exhibitors.*—Intending exhibitors should apply to the Agricultural Superintendent of the State, Trichur, before the 20th of November 1910. In this application, they must give full particulars of their exhibits and the group, etc., under which they fall. Information whether covered or open space is required, should also be given.

13. Any exhibits not falling under the groups, etc., as per appendix will also be admitted at the discretion of the Diwan Peishkar.

14. Meetings of the leading raiyats of the various taluks will be convened as early as possible to give them a clear idea of the object and scope of the exhibitions, so that they may avail themselves of the opportunity afforded for their improvement, and they may co-operate intelligently with the Government to make the exhibition a success.

15. All applications should be addressed to the Agricultural Superintendent and must be superscribed "*Application for admission of exhibits to the Cochin Agricultural and Industrial Exhibition and Cattle Show, 1086.*" Applications will be registered by that officer. As the accommodation for the exhibits will be limited, applications received after the prescribed date may not be considered. Forms of application will be available in the Taluk Offices.

16. *Delivery of exhibits.*—Registered applicants should send their exhibits so as to reach the exhibition grounds at least five days before the exhibition with a list in duplicate giving the description of the exhibits according to the appendix. All packages containing the exhibits must bear labels specifying the name and number of exhibits. They must contain a list in duplicate showing the name or description of the articles, price, place of production or manufacture, name of exhibitor, etc. In respect of agricultural exhibits, the following information should be furnished :—

(1) Local name of grain,
(2) The season of sowing,
(3) Quantity of seed per acre,
(4) Manure used,
(5) Time required for maturing of the crop,
(6) Yield per acre,
(7) Other interesting details.

Printed labels will be distributed by the Tahsildars and the Agricultural Superintendent. Exhibits for sale only should be marked "*For sale.*" Ordinarily, the exhibitors or their authorised agents should accompany their exhibits. Exhibits which could be sent in Railway goods or parcels should be sent in packages, the freight and transport charges being always borne by exhibitors.

17. The Government will not be responsible for any risk or damage in cases where exhibits are not accompanied by owners.

18. The receipt of exhibits will be acknowledged by the duplicate list being signed by the Agricultural Superintendent and returned to the exhibitor.

19. *Passes for admission.*—No exhibits, exhibitors or visitors will be admitted to the exhibition grounds without passes signed by the Diwan Peishkar, which will be issued outside the exhibition grounds. Free passes will be given to exhibitors who accompany their exhibits.

20. As far as possible, accommodation will be provided for articles intended for sale. The Committee will allow those who wish to send articles on a large scale to have temporary booths put up at their own cost.

21. The exhibitors should fix or remove their exhibits on their responsibility and should bear the expenses of the same. The Government will not be responsible for any loss or damage caused to the exhibits in the exhibition grounds. But the Government will be ever ready to help the exhibitors whenever necessary, and responsible officials will be deputed to superintend the receipt into, and removal from, the exhibition grounds, of the exhibits.

22. Exhibits may be sold on exhibition grounds but shall not be removed till after the exhibition is over. Sales will be notified by a card affixed to the exhibit.

23. Noxious or dangerous exhibits will not be admitted. Perishable exhibits may be exhibited and removed on one and the same day.

24. Prizes will be offered only if the exhibits satisfy the quality required by the Judges to be appointed by the Government.

25. Prize winners will be furnished with certificates also in addition to prizes.

26. *Cattle show.*—Separate arrangements will be made to accommodate different kinds of cattle. These will be arranged in a convenient place and selections made from them for the show.

27. Only cattle admitted to the show yards will be provided with fodder free by Government for the days of the show and for one day previous.

28. Every animal admitted to the show yards should be accompanied by a sufficient number of men to keep it under proper control.

29. Only cattle considered suitable will be allowed to compete in the cattle show for prizes.

30. No animal which has won one prize will be allowed to compete for any other prize.

31. Working cattle may, at the option of the Judges, be subjected to a practical test as to their power of draught. They must be the *bona fide* property of the exhibitor.

32. *Cattle fair.*—Outside the show yards will be held a fair, to which healthy cattle only will be admitted.

33. All persons who become exhibitors shall be held to signify their consent and acceptance to the above conditions and to such other conditions which the Government may hereafter prescribe. The Committee have power to make rules for the conduct of the exhibition and their decision is final.

34. The power to alter the prospectus as convenience may require is vested in the Diwan.

Office of the Diwan of Cochin,
Revenue Department (Land Revenue).
18*th September* 1910.

No. G. 3424—G. M. 173-10-2, dated 5th December 1910.

The following Resolution of the Government of India, Department of Commerce and Industry, Post Office, No. 7843—7880-51, dated the 29th October 1910, regarding the proposal to increase the number of Post Office Holidays by six days, is published for general information.

By Order,
C. S. BALASUNDARAM IYER,
Offg. Secy. to Govt., Gen. & Rev. Depts.

No. 7843—7880-51.

GOVERNMENT OF INDIA.

DEPARTMENT OF COMMERCE AND INDUSTRY.

POST OFFICE.

Simla, the 29th October 1910.

RESOLUTION.

The Government of India have had under their consideration the question of increasing the number of Post Office holidays. At present, holidays are given in the Post Office on Sundays, New Year's Day, Good Friday, the King's Birth Day and Christmas Day, but even on these days very few of the postal officials can be allowed complete relaxation from work, as certain duties must be performed in connection with the delivery and despatch of mails, which necessitate the attendance for some period of the day, of the majority of the staff at the various offices.

2. Representations have been made to the Government of India that the general liability to work on Sundays and holidays constitutes a grievance in the case of its large body of Post Office employees, for which a remedy should be found. It is recognised that it would be impossible to allow the staff of the Post Office as many holidays as are enjoyed by most other Government servants, but inasmuch as work in business offices is either stopped altogether or greatly curtailed on the more important public holidays, it has been represented that there would be no serious objection to increasing the number of Post Office holidays, by six days to be selected as far as possible from those gazetted under the Negotiable Instruments Act. Most of these holidays are granted on account of important religious festivals, and the duties of postal servants prevent them to a large extent from attending and taking part in these observances to which many of them attach great importance. The six additional holidays would not necessarily agree in the different postal circles, but would be arranged to suit local conditions.

3. It has accordingly been proposed that six new holidays should be held on the days of the following festivals.

For all circles except Madras and Burma—

1. Muharram.
2. Holi or Doljatra.
3. Janmastami, or Gokulastami.
4. Id-ul-Fitr, or Ramzan.
5. Dasehra or one day of the Pujas.
6. Divali or Kali Puja.

For Madras—

1. Pongal.
2. Mahasiva Ratri (or Telugu New Year.)
3. Avani Avittam (or Tamil New Year.)
4. Mahalaya Amavasi.
5. Id-ul-Fitr, or Ramzan.
6. Dipavali.

For Burma—

1. Muharram.
2. Burma New Year.
3. Beginning of Buddhist Lent.
4. One day of the Pujas.
5. End of the Buddhist Lent.
6. Tazaundaing.

The dates to be selected would be notified before the beginning of the year in all post offices and in the Postal Guide.

4. The Government of India are prepared to take this question into consideration, if there is a generally expressed desire on the part of the public to afford relief in the matter of holidays to the employees of the Post Office. And this Resolution is published in order to afford the public an opportunity of expressing their opinion on the proposals it contains. It is not intended that these should apply to the Telegraph Department or to the Telegraph Staff in combined offices.

5. The Government of India will finally consider these proposals after the 1st January 1911. They will be glad to receive before that date any representations on the subject which Local Governments, public bodies, or private persons may desire to make.

ORDER.—Ordered that a copy of this Resolution be forwarded to all Local Governments and Administrations, to all Chambers of Commerce and Trades Associations and to all Departments of the Government of India.

Ordered also that a copy be published in the *Gazette of India*.

W. MAXWELL,
Secretary to the Government of India.

In Koppa—Paddy, sugar cane, coffee and pepper.
In Mudgere—Paddy, coffee and cardamom.
In Yedahalli—Paddy, areca, sugar cane and coffee.
In Sringeri—Paddy and sugar cane.
All these are reported to be in good condition.

Crops harvested.—Chikmagalur—paddy, yield 12 to 16 annas; Kadur—paddy, 14 annas, ragi 12 annas and sugar cane. Tarikere—paddy, ragi, jola each 12 annas. Koppa—paddy and coffee. Mudgere—paddy and coffee, yield 12 annas each. Yedahalli and Sringeri—paddy and areca, yield 12 annas each.

10. Prospects of the season are good. Food grains are sufficiently available.

11. Except for plague in the towns and some of the villages of Chikmagalur, Kadur and Tarikere, public health is generally good.

12. Cattle are generally healthy. But 'foot and mouth disease' still prevails in certain villages of Chikmagalur. Water and fodder are sufficiently available.

CHITALDRUG.

8. Market well supplied.

9. *Standing crops*, such as sugar cane, Bengal gram, horse gram, chillies, togari, cotton, jola, samè, haraka, avare, tadagani, castor, green and black grams, are in good condition.

Seeds sown.—Paddy and wheat in the Challakere Taluk.

Crops harvested.—Ragi, navane and sajje in the Chitaldrug, Hiriyur and Hosdurga Taluks, yield 8 to 16 annas; paddy in the Molakalmuru Taluk, yield 12 annas; samè and haraka in the Hosdurga Taluk, yield 12 to 16 annas.

10. Prospects of the season are fair. Food stuffs are available.

11. Public health is generally good.

12. Cattle are healthy. Water and fodder are available.

	Grand Total ...	Rs. 1,068		

GENERAL CONDITIONS.

1. In view to arrangements being made for staging plants, it is requested that exhibitors will notify to the undersigned, at least four days prior to the Show, what number of pots they intend to enter and for what prize they intend to compete. Entry forms are supplied on application to the Superintendent and exhibitors are requested to use these.

2. The large foliage groups should be ready arranged two days before the Show.

3. Plants intended for competition should be delivered in the Conservatory before 4 P.M. on the day previous to the Show.

4. Cut flowers may be delivered up till 2 P.M. on the day of the Show, but not later if intended for competition.

5. No prize shall be awarded unless there are at least two competitors for it, except in cases of rare excellence, when the Judges will use their own discretion.

The number of exhibits in all classes and sections should exceed the number of prizes offered, otherwise the Judges will be authorised to reduce the full value of such prizes.

6. It shall also be competent for the Judges to reduce the amount of prizes if, in their opinion, the articles exhibited do not merit the full sums.

7. Obtrusive staging, over-crowding, packing to conceal blemishes, and artificial support to blooms, etc., will be judged as defects to an exhibit, preference being given to natural growth and artistic arrangement.

8. Where a number limit is laid down, any exhibit exceeding that number shall be disqualified.

9. Where one plant of each kind or variety is specified as a condition, any exhibit containing duplicates shall be disqualified.

NOTE.—For the purpose of the exhibition the words kinds and varieties may be illustrated as under:—Apples, oranges, figs, grapes, etc., are distinct *kinds* of fruits. Ribston Pippin, Blenheim Orange, Golden Reinette, etc., are distinct *varieties* of apples. Roses, Chrysanthemums, Dahlias, etc., are distinct *kinds* of flowers. Marechal Niel, Crimson Rambler, La France, etc., are distinct *varieties* of roses. Cabbage, Beans, Beet, Carrot, etc., are distinct *kinds* of vegetables. Sugarloaf, Early Drumhead, Enfield Market, etc., are distinct *varieties* of cabbages.

10. Two or more persons may not compete for prizes separately with plants, etc., from the same garden.

11. If funds are available, the Judges may award special extra prizes in cases of exceptional merit.

12. All exhibits sent for competition must be *bonâ fide* the produce of, or have been raised by, the exhibitors; and unless otherwise specified, must have been grown in Bangalore.

The Judges may withhold any prize until proof of these conditions be produced. Contractors bringing up fruit and vegetables for competition in their own name can compete for prizes but not for medals.

13. Exhibitors will not be permitted to remove their exhibits until the Show is closed, and gardeners and others found offering articles for sale before 6 P.M., on the day of the Show shall be summarily ejected.

14. No one can be a Judge in any class in which he may be an exhibitor.

15. Similarly, while judging is going on, no exhibitor is permitted to be in the Exhibition and any exhibitor acting contrary after being asked to retire will have his exhibits disqualified.

16. The names of exhibitors can only be attached to exhibits when the judging has been completed.

The following Rules for awarding medals at the Horticultural Shows are hereby notified to the public :—

The Government of His Highness the Maharaja have sanctioned the grant of medals in addition to the usual money prizes offered at the half-yearly Horticultural Shows, subject to the following conditions :—

(1) The medals will consist of a gold medal for classes I, II and III, a silver medal for class V and a bronze medal for class VI.

(2) These medals will be awarded by the Judges, at their discretion, at the Summer Show held in July or August in each year.

(3) The following exhibitors will be qualified for the award of a medal :—

(*a*) The exhibitor of the best all-round exhibit in the appropriate class or classes, taking the two shows of the calendar year together ;

(*b*) The exhibitor of an exhibit of more than ordinary excellence in any group ;

(*c*) The exhibitor of any specially meritorious novelty.

(4) No exhibitor who has been awarded a medal in any class will be qualified to receive another medal in that class during the three calendar years succeeding that in which he has received the medal.

(5) No exhibitor will be qualified to receive a medal who is not the *bonâ fide* cultivator of his exhibit or the actual occupant of the garden in which the exhibit was raised, *e.g.*, no contractor who has merely purchased fruit or vegetables exhibited will be eligible.

(6) It will be open to the Judges to withhold any or all the medals in any year on the ground of deficiency of merit in the exhibits. It is also left to the discretion of the Judges to award the medal to the exhibitor who has obtained the most prizes during the year in the respective classes.

The Flower Show opens on Saturday the 4th February 1911 at 3-30 P.M.

The Floral Parade takes place at 5-30 P.M.

Vegetables will, if possible, be exhibited till Sunday the 5th, 9-30 A.M., after which they may be sold.

Ladies' Decorated Bicycles ...	15	10	5
Grand Total ...	Rs. 1,068		

GENERAL CONDITIONS.

1. In view to arrangements being made for staging plants, it is requested that exhibitors will notify to the undersigned, at least four days prior to the Show, what number of pots they intend to enter and for what prize they intend to compete. Entry forms are supplied on application to the Superintendent and exhibitors are requested to use these.

2. The large foliage groups should be ready arranged two days before the Show.

3. Plants intended for competition should be delivered in the Conservatory before 4 P.M. on the day previous to the Show.

4. Cut flowers may be delivered up till 2 P.M. on the day of the Show, but not later if intended for competition.

5. No prize shall be awarded unless there are at least two competitors for it, except in cases of rare excellence, when the Judges will use their own discretion.

The number of exhibits in all classes and sections should exceed the number of prizes offered, otherwise the Judges will be authorised to reduce the full value of such prizes.

6. It shall also be competent for the Judges to reduce the amount of prizes if, in their opinion, the articles exhibited do not merit the full sums.

7. Obtrusive staging, over-crowding, packing to conceal blemishes, and artificial support to blooms, etc., will be judged as defects to an exhibit, preference being given to natural growth and artistic arrangement.

8. Where a number limit is laid down, any exhibit exceeding that number shall be disqualified.

9. Where one plant of each kind or variety is specified as a condition, any exhibit containing duplicates shall be disqualified.

NOTE.—For the purpose of the exhibition the words kinds and varieties may be illustrated as under:—Apples, oranges, figs, grapes, etc., are distinct *kinds* of fruits. Ribston Pippin, Blenheim Orange, Golden Reinette, etc., are distinct *varieties* of apples. Roses, Chrysanthemums, Dahlias, etc., are distinct *kinds* of flowers. Marechal Niel, Crimson Rambler, La France, etc., are distinct *varieties* of roses. Cabbage, Beans, Beet, Carrot, etc., are distinct *kinds* of vegetables. Sugarloaf, Early Drumhead, Enfield Market, etc., are distinct *varieties* of cabbages.

10. Two or more persons may not compete for prizes separately with plants, etc., from the same garden.

11. If funds are available, the Judges may award special extra prizes in cases of exceptional merit.

12. All exhibits sent for competition must be *bonâ fide* the produce of, or have been raised by, the exhibitors; and unless otherwise specified, must have been grown in Bangalore.

The Judges may withhold any prize until proof of these conditions be produced. Contractors bringing up fruit and vegetables for competition in their own name can compete for prizes but not for medals.

13. Exhibitors will not be permitted to remove their exhibits until the Show is closed, and gardeners and others found offering articles for sale before 6 P.M., on the day of the Show shall be summarily ejected.

14. No one can be a Judge in any class in which he may be an exhibitor.

15. Similarly, while judging is going on, no exhibitor is permitted to be in the Exhibition and any exhibitor acting contrary after being asked to retire will have his exhibits disqualified.

16. The names of exhibitors can only be attached to exhibits when the judging has been completed.

The following Rules for awarding medals at the Horticultural Shows are hereby notified to the public :—

The Government of His Highness the Maharaja have sanctioned the grant of medals in addition to the usual money prizes offered at the half-yearly Horticultural Shows, subject to the following conditions :—

(1) The medals will consist of a gold medal for classes I, II and III, a silver medal for class V and a bronze medal for class VI.

(2) These medals will be awarded by the Judges, at their discretion, at the Summer Show held in July or August in each year.

(3) The following exhibitors will be qualified for the award of a medal :—

(*a*) The exhibitor of the best all-round exhibit in the appropriate class or classes, taking the two shows of the calendar year together ;

(*b*) The exhibitor of an exhibit of more than ordinary excellence in any group ;

(*c*) The exhibitor of any specially meritorious novelty.

(4) No exhibitor who has been awarded a medal in any class will be qualified to receive another medal in that class during the three calendar years succeeding that in which he has received the medal.

(5) No exhibitor will be qualified to receive a medal who is not the *bonâ fide* cultivator of his exhibit or the actual occupant of the garden in which the exhibit was raised, *e.g.*, no contractor who has merely purchased fruit or vegetables exhibited will be eligible.

(6) It will be open to the Judges to withhold any or all the medals in any year on the ground of deficiency of merit in the exhibits. It is also left to the discretion of the Judges to award the medal to the exhibitor who has obtained the most prizes during the year in the respective classes.

The Flower Show opens on Saturday the 4th February 1911 at 3-30 P.M.

The Floral Parade takes place at 5-30 P.M.

Vegetables will, if possible, be exhibited till Sunday the 5th, 9-30 A.M., after which they may be sold.

School children will be admitted on Sunday between 1 and 2 P.M.
